Polyurethane sections & welding units

Standard belting sections:-

Rough & smooth - round, flat & V sections.

Custom made profiles for sealing applications etc.

We supply in roll form & vulcanised rings

To compliment these materials we offer welding units to form endless belts & seal rings.

These can be in kit form or individual parts according to usage:-

Temperature regulated welding iron unit with custom made Teflon coated tip. Lightweight plastic or robust metal clamp unit.

Cutters & trimmers.
