

# When only the best will do

CUTTING EDGE ORTHOPAEDIC SURGERY REQUIRES ABSOLUTE PRECISION. IF YOU HAVE REQUIREMENTS FOR PRECISION TURNED PARTS IN THE MEDICAL INDUSTRY, THEN CHOOSE THE EXPERTS. CHOOSE ASGARD ENGINEERING!

- ◇ Accuracy
- ◇ Integrity
- ◇ Precision
- ◇ Quality
- ◇ Reliability
- ◇ Stainless Specialists
- ◇ Titanium Components

When one of the UK's leading producers of orthopaedic implants and surgical instrumentation needed a partner to provide precision turned parts to exact tolerances of 10 microns, they naturally turned to Asgard Engineering, the Cheshire based Precision CNC turning company.

*“ Whilst we always strive to remain competitive in ever more challenging markets, we must at first seek to maintain and improve our quality. ”*

Along with Medical & Surgical applications, Asgard is also active in Aerospace, Defence, Fluid Power and Control, Dispense, Nuclear and Power Generation & Control.
