

This compact high performance machine takes the strain out of inserting all types of eyelet.

- **Curtain Eyelets**
- **Grommet Eyelets**
- **Sail Eyelets**
- **T.I.R Eyelets**

Totally air operated . In one single action it will punch out a hole in the material whilst simultaneously setting the eyelet or grommet.

- Does not require any electrical connection.
- Extremely simple to operate.
- Sets sizes up to 66mm hole diameter.
- Sets eyelets in a wide variety of materials including vinyl, plastic, canvas, cloth and leather.
- Side and Back stop for accurate placement of work.
- Foot operated pedal leaves both hands free.
- Finger guard protection mechanism prevents operation when dies are obstructed.
- An optional laser can be fitted as an alternative way of positioning material.
- A video demonstration of this machine can be viewed on our website www.eyelets.co.uk.

Available with or without bench, or mounted on castors for moving around the floor/ table when working with very large pieces of material.
