

Designed for high volume constant use. This semi-automatic eyeleting machine feeds the eyelet to the setting dies via a hopper fed raceway and then in a single action punches out a hole in the material while simultaneously setting the eyelet without the operator having to handle the components.

- Pneumatically powered
 - Quiet operation
 - Solid construction
 - Sets eyelets in a variety of materials including plastic, paper and leather
 - Back and side stop for accurate placement of work.
 - Optional laser positioning system available
 - Foot pedal operation leaves both hands free.
 - Large capacity component bowl
 - By changing the dies, bowls and raceway, different sizes of eyelet can be used.
-
- **Footwear**
 - **Packaging**
 - **Print finishing**
 - **Electronics**

TECHNICAL DATA

Model	EMJ231
Height	1330mm
Width	800mm
Depth	490mm
Weight	120kgs
Power Supply	6 bar
Max hole size of eyelet	8mm
Setting per minute	60
