## Calibration & Repair

We provide calibration and repair services, either in our own calibration laboratory or at our customers' sites. All our calibration is traceable to national standards via our **UKAS** certified working standards. We repair and refurbish most types of electrical / electronic devices, ranging from process / electrical measuring instruments to printed circuit boards and power supplies. We offer a complete electrical and mechanical fully managed calibration service and provide 5-7 day laboratory turnaround times for scheduled items.

FREE pick-up and delivery services may be available in your area (please call for details).

### Our Calibration and Repair Services include:

- Pressure – Absolute, Capillary, Controllers, Diaphragm, Differential, Gauge, Indicators, Switches, Transmitters.
- Temperature – Controllers, Dial, Filled Systems, Indicators, Probes, PT100 RTD's, Recorders, Thermistors, Thermocouples, Transmitters
- Voltage/Current/Resistance – Amplifiers, Clampmeters, Eletro Static Devices, IR Testers, Multi-function Testers, Multimeters, Portable Appliance Testers, UPS, 17th Edition Testers.
- Frequency – Counters, Generators, Oscilloscopes.
- Speed – Brakemeters, Tachometers.
- Analytical – Analysers, Dew Point, pH, Relative Humidity (RH).
- Light – Lux Meters.
- Force – Cells, Weights.
- Level – Conductivity, Controllers, Differential, Diaphragm, Float, Gauges, Indicators, Switches, Tank, Transmitters, Ultrasonic
- Dimensional – Calipers, Micrometers, Rules, Timers.
- Process – Alarms, Controllers, Convertors, Indicators, Recorders, Switches, Transmitters.
- Flow – Anemometers , Controllers, Differential, Indicators, Recorders, Rotameters, Switches, Transmitters.
- Torque – Analysers, Wrenches.

*"Fast, reactive, calibration and repair when you need it most."*
