Lifting Slings

Offering low weight, flexibility and ease of handling, Texspan slings will provide the ideal solution to most of your lifting problems. All slings are colour coded and additionally have ident stripes to indicate WLL, (Working Load Limit). Both duplex and round slings are manufactured to give a 7:1 safety factor, each sling is individually numbered for traceability and supplied with a certificate of conformity. Texspan slings fully comply with the requirements of BS EN 1492 : 2000, the UK & European lifting sling standard. All slings are CE marked.

Texspan duplex slings are manufactured in double thickness webbing produced from high tenacity polyester yarn. Terminated with a becket eye, reinforced to protect the eye against damage during lifting. They offer lightness and suppleness, removing the risk of damage to sling or load.
