Pulsonix appoints MTT to sell and service Pulsonix in Scandinavia

Tewkesbury, UK. January 26th, 2015 - Westdev Ltd. - the PCB EDA company delivering technology-leading PCB design solutions today announced the appointment of MTT Design and Verification AB in Sweden to sell and service Pulsonix in the Scandinavian region.

“We are extremely pleased to be able to add MTT with their wealth of experience as our latest sales partner. MTT have a strong technology background and are well placed to service the Scandinavian region for us.” comments Bob Williams, Marketing Director for Westdev.

Martin Trossing, Co-Owner at MTT further added, “As a dynamic company, Westdev puts the customer at the centre of their focus and is able to provide a high quality of service. This philosophy is aligned with our own company values towards customers. We are very pleased to be working with Westdev.”

Pulsonix Overview

Introduced in 2001, Pulsonix EDA software has made its mark to set the standard for high-performance Schematic design capture, Simulation, PCB layout and autorouting. Developed by a dedicated in-house team, each release demonstrates how the fast-growing Pulsonix product is introducing key features to win new business and offer users flexible and highly compatible software that meets the demands of PCB design today.

MTT Overview

Since 1987, MTT has focused on tools and equipment to simplify the design and verification of electronic products. The company is run by engineers with over 60 years of experience from designing, supporting and selling RF, EMC and Microwave products to both large and small organisations in the electronics industry.

Recent expansions in to thermal simulation and PCB layout tools is part of the company's strategy to deliver design and verification tools for all kinds of electronic design challenges.
