# White Co-Ex Mailers

These mailing bags are a great option when sending out heavy goods or items of value, as these are completely opaque bags and so offer superior protection for your goods whilst in transit.

All these mailing bags incorporate a permanent self-seal closure and are a co-extruded low-density polythene, making them 100% opaque. Whilst these are our toughest mailing bags they still offer a low posting weight, are weather-proof, burst and puncture resistant, and 100% recyclable.

#### Available in medium duty - 50 micron

MDOC5 175mm x 230mm  
MDOC4 230mm x 325mm

#### Available in heavy duty - 70 micron
