Many organisations including schools, academies, colleges and universities now have a need to provide laptop lockers in order to offer secure storage or recharging facilities for staff, teachers or students.

Here at 3d Lockers we have a range of laptop storage lockers with single service access doors direct into multi compartments or individual access to each compartment.

Available with charging or non charging facilities, our range of storage lockers can also be used to store tablets, iPads, net-books and other small media devices.
