

## The AUTOPA Removable Bollard 900

The Removable Bollard offers an effective, simple and robust way to protect premises and vehicles. Removable Bollards are particularly suitable for locations where occasional access is required, the simple pin and padlock system provides an easy to operate solution for locking the bollard in place. The Removable Bollard is 900mm above ground and is available in a range of outside tube diameter sizes from 90mm through to 139mm.

The Removable Bollard 900 is ideal for protecting vehicle forecourts, commercial premises, car parks and domestic driveways and can be used in conjunction with fixed bollards as part of a security system for all types of premises.

The AUTOPA Removable Bollard 900 is shown in 114mm with the standard galvanised finish.

## Product details

900mm above ground.  
Galvanised Steel Tube Body and Socket.

## Installation & use

It is recommended that posts are placed no further than 1,200mm apart to ensure no vehicle may pass between.

The ground socket must be concreted into a hole of approximately 300mm cubed.

The flap should be flush with the surrounding ground level when closed.

Suitable provision for should be allowed for drainage from the bottom of the excavated hole.

This product is guaranteed for 12 months (*if installed and used correctly*).
