Commercial, Agricultural, Marine and Construction... no matter what industry, the THOR pressure washer range has the power and strength to operate in the most demanding environments.

THOR'S incredible cleaning power is achieved by combining a world leading Interpump 66 Series with the ultra reliable German manufactured Hatz 2G40 23 Hp twin cylinder air-cooled diesel engine.

A key feature of the Thor is the unique Vibroflex torsional drive coupling. Located in-between the engine and gearbox it eliminates the on-off stresses and snatch effect that can occur when a conventional hollow to solid shaft drive system is used.

Twin outlet ports for 2 operator use\*

**Vibroflex Coupling  
Cutaway**

**Control Panel with oil  
warning & charging lights**

Part No.	Description
204-1000	Optional Hose Reel Kit

- Maximum pressure 250 Bar
- Includes link hose & mounting bolts
- 40 metre hose capacity
- Hose not supplied with reel
- Kit not available on TPW18400DHE

- HATZ 2G40 23 Hp air-cooled twin cylinder diesel engine
- Oil bath air cleaner - 7 litre fuel tank - electric key start
- No maintenance fully sealed pure lead dry battery
- Hour clock for monitoring service intervals and work rate
- Manual hand throttle for infinite speed settings
- Gearbox driven 1450 Rpm Triplex Interpump 66 Series
- Adjustable pressure regulating valve with return to tank by-pass
- Preset pressure safety valve - high pressure gun and lance
- 10m high pressure hose - 4m suction hose with strainer
- Optional 40m hose reel\*
- Twin outlet ports for 2 operator use\*
- Four wheel trolley with low ground pressure tyres
- Heavy duty trolley with solid axles and extra side protection bars
- Wheel brake with positive spring loaded lock for on site stability
- Accumulator for smooth operation and reduced operator fatigue\*

\*Not available on TPW18400DHE
