

Quiet Call Titan Paging System

Robust Patient Paging System

Presented in a space-saving modular stack the BTG Titan Pager is an economical addition to any venue.

With simple easy to change advertising inserts and batteries that are user replaceable Titan Patient Paging is a low maintenance pager option. With an easy viewable number display and an IP54 rating Titan is a dust & splash resistant pager solution.

A Quiet Call Titan Paging System will transform the way you communicate with your patients. Quiet Call Titan allows you to efficiently contact patients wherever they are located in your facility.

Hand a Quiet Call Titan coaster pager to waiting patients and allow them to relax whilst waiting for their appointment.

You can add pagers to existing stacks or add charging bases as required, all managed from a single transmitter. Titan pagers can be programmed to vibrate, beep and flash and the advertising panel can be customised with hospital branding and message.
