

PROJECT PROFILE

Overview

Within a complete new facility a Class 10,000/ISO7 Cleanroom Environment was required for a project that involved the cleaning, assembly and packaging of critical Aerospace parts. Guardtech Cleanrooms were involved from the initial design stages right through to installation and validation of the facility. The purpose built modular facility included temperature control. The Guardline Group continue to provide a range of products and services including maintenance and annual Validations.

Scope of Supply

- Partitions
- Doors
- Windows
