

PROJECT PROFILE

Overview

Following a site closure a Class 1,000 / ISO6 Cleanroom became redundant in the space it was installed. With experience in handling Cleanroom relocations Guardtech were employed to move the modular room along with all connecting services and equipment to a new site at the University. This was the most cost effective option for the client who would have been paying a lot more for a new area. Through careful planning and Project Management the dismantling, transport and installation process ran smoothly, ahead of schedule and to budget.

Scope of Supply

- Cleanroom Relocation
- Electrical Services
- Vinyl Floor
- Walk On Ceiling
- Air Conditioning
- Ductwork
- Fume Extraction
- Lighting
- Cleandown
- Validation

University – ISO6 Cleanroom Relocation

Client comments

“We were extremely pleased with the service received from Guardtech in relocating one of our packaged Cleanroom facilities to the main University campus. The team from Guardtech were very professional and delivered a modified facility on time and to budget. We would not hesitate in recommending their service for similar projects.”

Stuart Bonney, Brunel University
