

PROJECT PROFILE

Overview

A newly extended area was installed to achieve Class 10,000/ISO7 conditions. The new room will be used to produce a newly developed product with part of the process going through Cleanroom Ovens. The ovens were effectively installed within cut-outs in the panel system and easily demountable covers provided for maintenance.

Scope of Supply

- Partitions
- Cladding
- Doors
- Integrated Oven Covers
- Filters
- Electrics
- Polysafe Floor
- Lighting
- Cleandown
- Validation

Medical Device – Class 10,000 / ISO7 Cleanroom

Client comments

“Proposal was clear and concise with a good understanding of our requirements. Scope, time-frame and associated costs well presented with clear schematics of the areas to be constructed. Construction was carried out to a good standard by experienced workmen who were adaptable to our requirements. Able to offer all the necessary requirements of the project :- Design, Supply, Install, Clean-down and Validation”
