

AMBRO

Ambroplastics Environmental Statement

Ambroplastics Ltd. is committed to leading the industry in minimising the impact of its activities on the environment.

The key points of its strategy to achieve this are:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Minimise toxic emissions through the selection and use of its vehicles and the source of its power requirement , recycle or reuse unavoidable waste wherever possible, and keep landfill waste to an absolute minimum
- Actively promote recycling both internally and amongst its customers and suppliers by way of a closed loop recycling system, by encouraging customers to return our products to us at end of their life for re-use or recycling.
- Source and promote a product range to minimise the environmental impact of both production and distribution. Pursue opportunities to produce and sell products that are recycled or recyclable
- Meet or exceed all the environmental legislation that relates to the Company.
- Use an accredited program to offset the greenhouse gas emissions generated by our activities.

T. Teichmann

Managing Director
