

# The CORETEX Group

Innovative lightweight honeycomb cores, panels, composites, adhesives, process equipment & consultancy

## The Coretex 'Cost Effective' Consultancy

'Consultancy' can sometimes conjure up the view of long term expensive overheads that can produce more questions than answers.

At Coretex we do things differently.

At Coretex we have a very simple offer: –

- ✓ Use us as much or as little as you want\* at an agreed day rate or fixed cost.
- ✓ See us as an expert resource that you can dip into and out of as and when the project need arises.
- ✓ Getting the right input at the early stages of a new design can save you a small fortune further down the road.

So why use Coretex:-

- ✓ You deal directly with the Managing Director, Geoff Layland
- ✓ Qualified Mechanical Design Engineer with hands on Composites manufacturing experience
- ✓ 30 years in Engineering Design, Production and Marketing of Honeycomb Cores and Lightweight Composite Structures
- ✓ Excellent network of material suppliers, processors and manufacturers
- ✓ Fast track your ideas from development into production
- ✓ Help with short term / long term project management
- ✓ Review existing designs to reduce weight and/or cost
- ✓ Help you to ask the right questions
