We're the Specialist Distributor for

***tyco* / Electronics**

Flightspares Electronics has re-established itself as a leading Distributor and Stockist of Tyco Electronics products.

The "NEW" Flightspares is privately owned, following a management buyout from the previous holding company, by two of the company Directors.

Now based in a brand new building in Rochford, Essex, Flightspares has a history going back more than 30 years, commencing with the supply of Components to the Aviation Industry and later the Rail, Specialist Automotive and Cable Assembly Markets. Many of the staff have extensive experience with Flightspares, Tyco/AMP and the Component Market Place.

The new company is able to be more flexible to its customers needs and its staff are now able to give superior support with more focus on the Tyco Product Range.

The Company has a QMS system with BSI registration for ISO9001/2000 release. All products are supplied with Certificates of Conformity and 100% Traceability.

Next-Day delivery is available from our extensive stock holding in Rochford. We can also arrange special supply arrangements from Same Day Courier to Long Term Schedules, Buffer Stocks, Consignment Stock and Kan-Ban.

We are the Master Distributors for CTT!
