**CML** INNOVATIVE TECHNOLOGIES  
WHERE INNOVATION COMES TO LIGHT

## T10 (T-3<sup>1/4</sup>) Xenon Automotive Solutions

### Our offer and services:

- Discrete lamp or complete assembly available,
- Gas-filling adjust to the exact needed level which guarantees a **high quality process**,
- **Innovative** manufacturing process **suppresses tungsten evaporation** and respects the environment,
- **All assembly processes**, including filament winding and glass processing, **performed in-house** at CML,
- **Module assembly:**
  - automatic assembly with a wedge base socket,
  - Assembly on a electrical circuit: stamped part or PCB upon request.

### Features:

- Gas-filled lamp (Xenon)
- Wedge base W2,1x9,5d socket
- Filament type: C-2R or C-2V
- Lead free and ROHS, compliant to directive EC/2002/95
- Lamp marking to be durably printed on the bulb and be located beneath the filament
- Wattage range: 3,5,6 or 7W
- Compatible with T10 sockets: 7080 and 7121 Series.

### Benefits:

- High brightness: 30% more luminous flux over Argon
- Whiter light due to a cleaner, longer burn with less blackening
- 3 times improved life hours over Argon
- 30° lower bulb temperature compared to Argon
