Welcome

We are an established Kent based company who produce a vast range of quality products to the exact specification and satisfaction of our clients. Our staff are highly motivated and take great pride in the quality of their work.

We can produce any product made from either PVC, polypropylene or paper over board. We can deal with any size of order as we have a vast range of machinery varying from hand operated to fully automated machines.

We are a forward thinking organisation and are always looking at ways to improve our processes so that we are able to provide you with quality products at competitive prices. We have made significant investments in machinery in our Kent factory in recent years to allow us to do this.

Tourism and Travel

Design and Sampling

We have a full in house design and sampling service which is available to all our customers to help with their designs and concepts.

We can take your original idea to a prototype for testing. Refine the design and go on to full production all under the one roof. This allows us to control the exact specifications and quality of the products for you from concept to finish.

Environment

We recycle all of the factory waste and we source all of our materials from the most environmental sources possible.

We conform to all European directives on the environment, for controlled substances and in addition have obtained REACH compliant status.
