Who are DtEC

DtEC Materials Handling is a leading manufacturer and supplier of a range of forklift attachments primarily to the Construction, Industrial & Warehousing Industries.

What makes DtEC unique, is that as we also manufacture, we are able to design, fabricate and test a bespoke attachment. Designed to suit your individual requirements, so whatever your need, whatever your budget, whatever your industry, DtEC will have the solution.

We also supply a wide range of Materials Handling Equipment, including Tower Crane Attachments, Hydraulic Attachments, Pallet Trucks, Castors & Wheels - even if it's not listed, we will endeavor to supply it for you.

At DtEC we understand that in some circumstances, next day delivery is paramount, so we have a huge range available in stock ready for when you need it.

At DtEC we offer a free site visit to ensure we can offer you the best option for your business. We will assess your requirements to ensure we can offer you the most cost effective solution. We also offer a wide range of standard attachments.

Our own fleet of vehicles deliver the majority of our deliveries for sale & hire, so we guarantee we can deliver as promised.

Whatever your line of work DtEC can supply forklift attachments to suit your trade; we pride ourselves on understanding our customers' requirements and delivering beyond their expectations.

Industrial Range Forklift tipping

Standard features of our industrial range are as follows:

Hopper body with folded top edges. Heavy duty easy action handle complete with safety catch. One way entry base frame as standard (3 way optional). Fitted with heavy-duty safety chain. All industrial models come with the option to bolt on castors.

Non Standard and multiple options available e.g

- Mesh height increase
- Steel lids
- Canvas tops
- Heel pin fittings
- Auto tipping
- Lifting lugs

Specially designed and manufactured skips to suit any application are available.

Model litres	Mat mm	Length mm	Width mm	Height mm	MAX SWL (kg)
350	3	1320	820	700	1000
500	3	1320	970	880	1000
750	5	1560	970	920	2000
1200	5	1980	1070	1110	2000
1600	5	1980	1570	1110	2000
2400	5	1980	1570	1410	2000

On site evaluation and demonstration service are also available.

Construction

Concrete pouring skips

We offer a wide range of concrete placement skips to cater for all your site requirements, together with ancillary equipment to facilitate their use. All products classified as lifting equipment are supplied with a valid test certificate.

- Column skips
- Coneflow skips
- Rollover skips
- Dualflow skips

Block Grabs

These custom designed grippers for specific work operations, manufactured in high quality material, are a result of our long and specialized experience in this sector. Call for full spec sheet.

Crane Forks

Designed and constructed in high quality steel. Designed for crane lifting of pallets and brick packs with adjustable forks. These forks have the advantage of a spring loaded lifting eye which automatically adjusts to the weights carried. This ensures that the crane forks stay level when empty or full. The forks are fitted with hooks to allow the use of a safety net (optional extra).

Boat skip

This high quality Boat Skip permits automatic unloading without manual intervention by the operator with a special, modern system of release. Available in various capacities.

SLAPP Clamp

Safe Lightweight Adjustable Pressing Palletlifter - the SLAPP Clamp is a safe, lightweight alternative to brick forks.

Key Benefits

- Safe Working Load of 1.5 tonnes
- Load clamping that make it stable and secure
- Lightweight - approx 50 kg
- Manhandle-able
- Easily transported in a small van or car
- Multi-adjustable, quick to fit, needing little space
- Minimal storage space required

Construction

Our Economy range of Forklift Tipping Skips

Self-tipping skips are the ideal way to transfer materials and rubbish. The economy model's body is manufactured in 3mm-plate steel, reinforced with an angle top. The base has either a 4-way entry or 2-way entry (suitable for castors). Features include tip handle, self return and automatic reset mechanism, and a safety retaining chain.

Non standard and multiple options are available e.g

- Mesh height increase
- Steel lids
- Canvas tops
- Heel pin fixings

Available in 3 sizes 750 litres, 1250 litre, 1750 litre

Capacity In litres	Length	Width	Height	MAX SWL (kg)	Net weight (kg)
750	1550	1260	860	1400	230
1250	1770	1320	1100	2000	245
1750	1840	1340	1280	2000	295

Introducing the Teleskip A New Product By DtEC

A totally new concept in site safety for construction sites

The teleskip is the latest innovation to keep the driver of the telehandler in the safety of his cab at all times. The teleskip automatically locks and unlocks behind the fork heels, no safety chain is required and the tipping is controlled from within the cab.

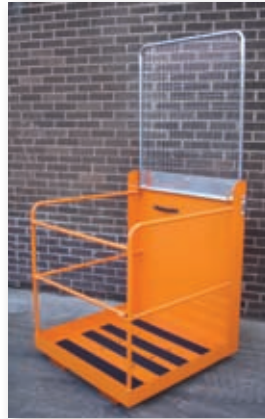

Suitable for all telehandlers with 125mm forks.

General Usage

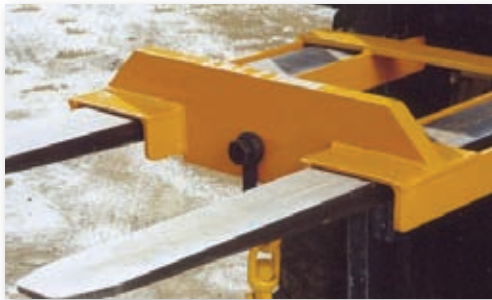

Forklift man riding safety platform

The platform provides a safe method of working at height for 2 persons when fitted to a forklift truck. The forks are located into pockets and the platform is secured to the forks by means of heel pin fixings behind the fork heel. Entry & exit from the platform is by means of a lift up bar. The use of a safety harness & lanyard is recommended.

Crane man riding safety platform

A man cage is the safest method of transferring personnel from high or low level work areas. All cages come with 4 leg lifting and 2 leg safety slings.

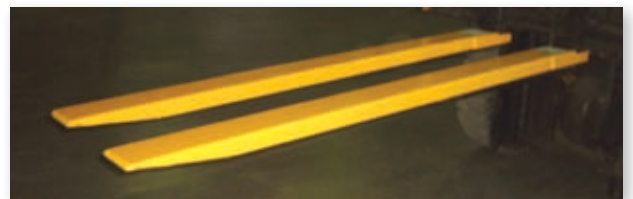

Fork Mounted Hooks

The safe and economical way of connecting your forklift truck into a mobile crane. This fork mounted hook is available in 1,2,3 and 4 tonne capacities @ fixed 600mm load centres, c/w swivel hook & shackle. To fit, simply slide the hook onto the forks to secure with the integral heel pin. Fully tested and certified.

Fork extension sleeves

Fork extension sleeves provide a simple and effective handling solution for the occasional need to stabilize long and awkward loads without the risk of damage.

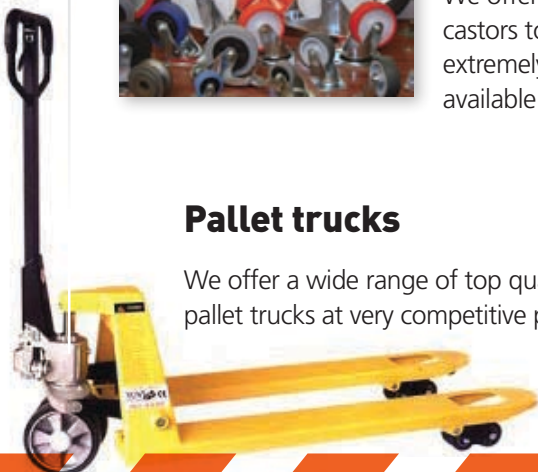

Castors and wheels

We offer a wide range of top quality castors to suit all applications, all at extremely competitive prices and all available with next day delivery.

Pallet trucks

We offer a wide range of top quality pallet trucks at very competitive prices.

Hydraulic attachments

We offer a broad selection of high quality Hydraulic Attachments for all applications.
