# PLASTICS

## We machine them all!

**ptp** are specialist manufacturers of high quality plastic components

Complex components can be made in a single operation using the latest sliding and fixed head CNC lathes.

As specialists we understand the inherent qualities of the many types of plastic and can offer technical advice if required

Our unique service eliminates contamination that may occur elsewhere and every product receives stringent inspection at every stage of production.

**ptp** quality management systems are certified to ISO 9001.

Delivery options include: KAN BAN/JIT, Weekly/Monthly scheduling, holding stock for call-off.

**contact today for a quotation within 24 hours**
