

**The SM15 2PS has a powerful stepper motor. The cutting length accuracy is approx. 1/10 of a millimetre. The machine can be used for a wide range of materials, such as: PVC hoses, fabric hoses, flat cable, round cable, wire, stranded wire, foil, soft rubber, hard rubber, PVC profiles, wire mesh, textiles, paper etc.**

**Like all cutting machines of the SM15 series, the SM15 2PS can be combined with the pre-feeder ZG15 S or ZG200 B2 and the delivery tray AL.**
