

PFA 120

PF A - 120

De-reeler with motorized axle for feeding cables, insulating tubes and other materials without any traction.

- Regulation of mobile arm with safety breaking in case of cable jam
- Basic speed adjustable by potentiometer.
- Maximum speed freely programmable.
- Acceleration and brake ramp freely programmable.
- Accident prevention by torque restriction.
- Start/Stop operation via a signal of an external machine.
- Enabling signal from or to another machine.
- Motor regulation protected against short circuit.
- **Analog entry for light sensor controller**

Option:

RS Interface

Technical Data::

Power supply:	220V / 370 Watt
Speed:	Number of revolution 0 – 200 per minute
Drum weight:	up to 30 kg max Ø 500mm max width 600mm
