# ABOUT US

Welcome to Plastor Ltd, leading suppliers of plastic storage containers and materials handling equipment.

Plastor Ltd was established in 1992 as independent consultants and suppliers of a comprehensive range of storage and materials handling containers. Today, we are one of the leading storage and handling supplies specialists in the UK, offering a huge range of great value, high quality products and advice to the biggest and smallest companies, across all industries.

Being independent, we are able to source the best product for the application, rather than 'making do' from a limited range. Our aim is simple, it is to provide you with the right product, give the correct advice and save you money.

## HOW TO ORDER

Tel: 01628 829800  
 Fax: 01628 822366  
 Email: enquiries@plastor.co.uk

Or via our website:  
**WWW.PLASTOR.CO.UK**

**In-Store:** Local? Visit our onsite showroom and pick up a bargain in-store.

## PRICES

You may notice that prices do not appear in this catalogue. This is because prices can fluctuate within a 12 month period and special offers are often available.

Please contact us for prices or a quotation. You can also find our prices and place orders online via our website:

**www.plastor.co.uk**

## THE RIGHT PRODUCT

If you cannot find what you are looking for amongst our standard ranges, then please let us know, and we will endeavour to find the right product for you.

## CUSTOM PRODUCTS

Custom sized containers can also be manufactured to your exact specifications out of a variety of materials, including conductive resin fibreboard and polypropylene. Container trucks and trolleys can be also made to individual designs, please contact us for a quotation.

## BARGAINS

In addition to our stocks of new containers, we are also able to offer used equipment and factory overruns at greatly reduced prices. Please contact us for our latest stock list or visit [www.plastor.co.uk](http://www.plastor.co.uk) (Special Offers page).

## HOW TO FIND US

Our office / showroom is conveniently situated between the M4 and M40 motorways in Maidenhead, Berkshire.

Plastor Ltd, Smithfield Road, Woodlands Park, Maidenhead, Berkshire SL6 3NP

# MOULDED PLASTIC PALLETS

Heavy Duty Pallets

Manufactured from high quality Food Grade Plastic and Recycled HDPE

Non Slip Surfaces and Fully Hygienic Designs Available

Weight Loadings for Racking from 200 to 1250kg in Racking

Compatible with all conventional mechanical handling and conveyor systems, with pump and hand trucks, and fork lifts

Sizes:  
1200 x 1000mm  
1200 x 800mm  
800 x 600mm

Item Code CR3-5

# FOLDING PALLET COLLAR

Converts Pallet into a Bulk Container

Pallet collars are built up in 30cm (1ft) high stages to suit height of contents

Highly resistant to impact damage, panels can be replaced should they become damaged

Folds flat when not in use, saving valuable space

Easy and quick to assemble and fold

Converts pallet in to bulk container.

Item Code CR3-5-R

Item Code D3-5

Item Code D3-5-R

Item Code H3-R

# BULK PALLET BOXES

The HogBox System

Gives significant cost savings over one trip alternatives

Increases safety in transportation

Improved hygienic handling

All components can be replaced and recycled

100% recyclable

Save up to 60% of valuable space

Can be supplied with access doors and with different pallet versions

## NEW!

190 litre box capacity

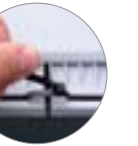

Secure, level load for double stacking in transit

Pallet feet built in to box to allow handling by forklift if needed

Lockable lid for complete product security

6 loaded Hog Boxes can be secured with a Loadhog Lid and handled as one UK pallet size transit item

Item Code 2320.461

Item Code 2330.456

Item Code 2326.820

Item Code 2336.820

Rated for 100kg load per box

Hand liftable with light load

Stackable up to 6 high when loaded

Lifter – ideal for in store replenishment

No pallets & up to 50% less vehicles needed

Nestable 3:1 ratio when empty

# PALLY – PALLET & WHEELED DOLLY IN ONE

Loadhog Pally

# LOADHOG PALLET LID

Loadhog Pallet Lids

The top deck of the Pally is designed to receive and nest with standard trays/totes

Central bearer can be removed to increase ground clearance

There are location points on the top deck for easy stacking when empty as a pallet or a dolly

Dedicated hand holes for manual lifting and stacking of the unit

Dedicated push/pull handle location

Pedal lifting mechanism

Two swivel, two fixed castors

Double stacking features to locate pallets

Unrivalled load stability Reducing product spillage and damage

Elimination of waste: Considerable cost savings by eliminating single-use plastic securing materials

Patented ratchet system

Hand holds for easy handling

Lids stack securely when empty

Security tags can be inserted around the ratchet to evidence load tampering and misuse

The lids can be fitted with an RFID tag making them traceable

Ideal for trays, boxes, cardboard or drums

No additional equipment needed to secure or move

Stackable when empty

## PEDAL MECHANISM

Pallet to dolly – one half pedal depression to release pallet bearers

Dolly to pallet – one full pedal depression to engage pallet bearers

Double Stacking

## STRAP MECHANISM

### KEY FEATURES

Compatible with forklifts, racking and automated production lines as a stable pallet. The Pally will deliver significant reductions in supply chain handling and increases in productivity compared to traditional equipment and practices.

With the addition of the Loadhog Lid the Pally becomes a complete, re-useable, fully secure and waste-free materials handling system. One foot press on the pedal at either end transforms the unit into a fully mobile wheeled dolly (and back to a pallet again with one more press).

Item Code	External Dim. (mm)	Nesting Height (mm)	Nested Stacking Height	Max Lifting Weight (kg)	Weight (kg)	Material	Colour
Pally	800 x 600 x 180	80	5 units/metre	500kg	15	Polypropylene	●
Pally Lid	800 x 600 x 90	60	16 units/metre		6	Polypropylene	●
Complete Pally & Lid System	800 x 600 x 240	240	4 units/metre	500kg	21	Polypropylene	●

### KEY FEATURES

The fully recyclable Loadhog Lid is constructed from robust, injection moulded polypropylene and specifically designed to secure a level load to any standard wooden or plastic pallet.

The lids incorporate built in retractable hooked straps, that are drawn down, located under the pallet and tensioned via a simple ratchet mechanism to secure the load without the need for stretch wrap or banding... The load is also released as simply, with a turn of the ratchet. Providing a simple, stackable, re-useable solution that can be used time and time again in a wide variety of application – eliminating waste, driving efficiency and cost savings in your supply chain.
