

Hilsonic

Introducing **Little Gem** from **Hilsonic**

A clean sweep for your business sector

- Do you want to increase your profits?
- Do you want more customers?
- Do you want to maintain your customer base?
- Cleaning verticals, venetian, woods, rollers and pleats!

Hilsonic have been manufacturing ultrasonic cleaning machines for the blinds industry for over 25 years and have supplied many different industries. Our compact Venetian and vertical blind cleaning Machine **Little Gem** will sit in a corner waiting to make you some money. On castors and easy to operate, within two minutes your blinds are clean! Safe to use and comes with a supply of environmentally friendly cleaning solution.

In the current economic climate people will want to clean their blinds instead of replacing them. Make use of this opportunity and make up to £1000 per day*.

Reasons for purchasing

Little Gem

- High quality engineering at an exceedingly low price
- Easy way to make extra money
- Expand your business concept without the need for extra space or training

Contamination on blinds leads to health risks, especially for people with asthma or allergies. Cleaning the blinds will remove bacteria, dust, pollen, nicotine and even mildew, leaving homes fresher and cleaner.

Don't let this opportunity pass you by. As well as selling blinds you can now offer to clean the blinds of your existing customers! You can also offer a 'free clean' service after 6 to 12 months to encourage your potential customers to choose you above your competitors.

Our blind cleaning **Little Gem** is the very best on the market and is offered with a full 5 year warranty and at the exceedingly low start-up price of **£3.34 per day** plus VAT.

For further information about the **Little Gem** ultrasonic blind cleaner and to find out about our whole range of ultrasonic cleaning products, please contact us at:

* Based on cleaning 100 blinds at the rate of 10 per hour for ten hours.

A Product from Hilsonic - the Engineer's Choice

A little marvel that will sit quietly in a corner, just waiting to make you money...

Hilsonic

Hilsonic has been one of the world's leading manufacturers of blind cleaning equipment for over 20 years, with our machines well established throughout the UK and Europe. By choosing the best, you can be sure of our commitment to our customers with full technical and marketing support.

The Chemicals

Each machine is delivered with a start up supply of Hilsonic cleaning fluid and rinse agent for both venetian and vertical blinds the machines will accept most types of cleaning detergents that are available throughout the UK and there is no need for solvents or caustic solutions.

Technical Support

We offer full training and technical support on our equipment along with a full 12 months parts and labour warranty. Each machine is also supplied with a manual explaining in detail how the machine operates and a brief introduction to ultrasonic energy.

Marketing Support

Our dedicated sales team offer full marketing support and advice on starting up an ultrasonic blind cleaning business, don't hesitate contact us today to discuss your first steps into this exciting business opportunity.

Hilsonic ultrasonic machines are designed for the efficient and economical cleaning of all types of window blinds, including venetian blinds, vertical blinds and external blinds and shutters.

Using the specially formulated Hilsonic process, each blind can be cleaned and restored to nearly new condition in just a few minutes. This means that a Hilsonic machine can clean around 100 blinds per day - a marvellous profit opportunity. Offices, factories, schools, hospitals and homes are all potential new customers, so you can repay your investment in double-quick time!
