

**If you think health & safety  
is expensive?**

**Try having an accident!**

## Every business must.....

- Provide whatever information, instruction, training and supervision is necessary to ensure, the health and safety at work of its owners, managers and employees.
- Identify situations where health and safety training is particularly important, such as when people start work, or are exposed to new or increased risks and where existing skills may have become rusty or need updating
- Assess the risks to employees while they are at work and to any other people who may be affected by the way business is conducted.

## Every year workplace negligence causes.....

- 200 people to be killed
- 1,000,000 people to be injured
- 2,000,000 people to suffer illnesses caused by, or made worse by, their work

## Penalties for health & safety breaches now include....

- 12 months imprisonment and up to £20,000 fine in a magistrate's court
- 2 years imprisonment and unlimited fines in a Crown Court
- Corporate manslaughter charges where breaches of health & safety result in a work related fatality.

## Don't risk lives, call us now – We can help you make your business safe

We will help you meet your legal duty to protect the health and safety of your employees with effective training programmes that can:

- Contribute towards making your employees competent in health and safety;
- Help your business avoid the distress that accidents and ill health cause;
- Help you avoid the financial costs of accidents and occupational ill health
- Help to guide your employees onto the correct training programme to suit both them and your organisation.
- Help you to organise your health & safety policies and procedures and help develop a safety culture within your workplace

Remember that your insurance doesn't cover all these costs and damaged products, lost production and demotivated staff can all result from accidents at work

We may also be able to help you find funding toward the cost of training where applicable.
