Logitrans
lifting performance

Logitrans Basics Range:

Quality For Standard, Light Use Applications

The Basics range from Logitrans offers you two trucks. The Basics pallet truck is very easy to operate and maintain, and the Basics highlifter can transport and lift a pallet to an ergonomically correct working height.

Both pallet truck and highlifter are very manoeuvrable and can contribute to a better utilisation of space in storage and production areas.

The Basics pallet truck and highlifter are strong and very durable.

BASIC BF / JF

Logitrans
lifting performance

Technical Description

Basics products are strong trucks, for which the price is adjusted to the quality.

Safety for the user:

• The lowering function is controlled by a lowering valve

• High-pressure relief valve to prevent overload

Good manoeuvrability & utilisation of space:

• Short length behind forks

• Tight turning angle

Rubber covered handle ensures a comfortable hold

The Basics pallet truck shown being used in the component industry moving heavy goods

Reliable leak-proof hydraulic system

The Basics pallet truck is shown being used in the component industry

Product (measured in mm)		Basics Pallet Truck	Basics Highlifter
Capacity (kg)		2500	1000
Lifting Height	h3	200	800
Fork Length	l	980, 1150	1150
Overall Height	h1	431	432
Overall Width	b5	520, 685	550, 685
Length Without Fork	l2	388	356
Overall Length	l1	l + 388	l + 356
Fork Width	e	160	163
Wheel Distance	y	l + 25	l + 80
Overall Height	h14	1224	1240
Lowered Height	h13	85	85
Load Centre	c	l / 2	l / 2
Ground Clearance	m2	35	25
Turning Angle of the Wheels		210°	210°
Fork Wheels - single		Ø80	Ø74
Fork Wheels - tandem		Ø80	
Steering Wheel		Ø200	Ø180
Weight		85kg (520 x 1150)	107kg (550 x 1150)
