

## frem is a design led manufacturer of custom made and general office furniture.

our reputation has been built over many years through listening to our clients, offering unparalleled levels of service and consistently exceeding expectations. our company ethos is based on having a friendly approach and on placing an equal level of importance to our suppliers, staff and customers alike, so from concept to creation the frem team will lead the way forward and demonstrate the true meaning of a working partnership. no matter how large or small the project, we approach it with the same level of dedication and professionalism, working with you and understanding your needs to ensure that our products exceed your expectations in every way.

### our approach

#### a passion for design

the entire workforce share a passion for design which is at the heart of every project we undertake.

we consider our highly skilled design team, who are used to working with specifiers, architects and dealers alike, the backbone of the company.

it is through their extensive knowledge of available materials and production techniques that we are able to offer our clients the perfect solution.

#### created by craftsmen

our experienced and highly skilled cabinet makers and engineers pride themselves on having the traditional values so essential in ensuring that the highest levels of craftsmanship are continually maintained on each and every item we produce whatever its scale and complexity.

#### unrivalled levels of service

the frem team are dedicated to delivering an unrivalled level of service with attention to detail being at the forefront of every department and every project we undertake.

'we pride ourselves on the quality of our workmanship, service and total commitment to the complete satisfaction of our customers.'

# complete boardroom solutions

we are able to offer a complete boardroom solution offering all of the elements you may require from boardroom tables, seating, audio visual walls, credenzas and lecterns and with a huge choice of materials available we can co-ordinate a complete new look or blend seamlessly into your existing décor.

technology has created a need for todays boardroom furniture to be more functional than ever before, so our key challenge has been to combine design with functionality.

the effectiveness of electronic presentations and digital communications made from the boardroom has led to the need to integrate technology seamlessly within the furniture and this has now become a common feature.

## complete boardroom solutions

from are able to either take care of all of your AV requirements or work with an existing supplier to ensure that your integrated Audio Visual wall not only looks great, but performs fantastically too.

## credenzas & lecterns

from are able to supply credenzas and lecterns in a huge range of materials and finishes to co-ordinate seamlessly with your AV wall or boardroom table.

# ask the experts

- commissioning your ideal boardroom or meeting room table need not be a daunting task
- with our unique, no obligation **Six step FREE design service** which will guide you seamlessly and effortlessly from concept to installation
- our experience and commitment ensures unparalleled levels of service and attention to detail from our initial consultation to the complete installation
- whatever level of service you require and whatever the scale of your project, we are on hand to guide you through every step of the way

## step one

an experienced consultant will visit you at your organisation to fully understand your specific requirements, what you need to achieve and the type of product you require and also to conduct a survey of the relevant area.

## step four

our team of designers are able to offer 3-D photo-real imagery of our concepts which bridge the gap from concept to creation and which can aid substantially with any internal approvals which may need to be gained. Sample swatches are also available on request.

## step two

our consultants will then liaise with our team of experienced, dedicated design professionals to ensure that your brief is effectively communicated and accurately translated

## step five

our team of skilled engineers will now turn your concept into reality, using traditional skills & the latest technology to ensure the highest levels of craftsmanship are continually maintained

## step three

our consultant will now present you our concept to ensure that we have accurately translated the brief and to take on board any tweaks, amendments or suggestions.

## step six

our experienced installation teams will now install the finished product, taking care to ensure that the whole process is as seamless and hassle free as it can possibly be.

## from environmental commitment...

### **sustainable development has always been an integral part of our design and production processes**

frem are committed to creating a better environment, through:

- the strategic planning of our business.
- by continually reviewing and improving our activities, products and services.

#### **sourcing of materials**

wherever possible we aim to manufacture products using recyclable materials and/or materials which have a valid chain of custody certification.

#### **efficient production and installation**

we strive to minimise all energy usage wherever possible and constantly review all of our practices to reduce, reuse and recycle our waste wherever possible.

frem manufacturing complies with ISO14001: 2004.

frem utilises minimal packaging ensuring minimal wastage.

all pallets are returned to the factory for re-use.

waste steel is recycled .

wood off-cuts are used in our certified carbon neutral wood burner.

#### **greater longevity**

modular designs minimise wastage, provide cost-effective solutions and facilitate the refurbishment and maintenance of our products.

wherever possible we ensure that our products are fully relocatable.

*More storage in less space*

Working with a specialist partner with over 28 years experience in the storage sector is just one reason why you can trust Storwell Systems with your enquiries.

We are **objective, non-tied, independent, and impartial** and continually researching all the leading UK manufacturers for product quality and innovation; only selecting those companies whose **integrity, design** and **product range** are the best in the industry so... you don't need to.

You can be sure you will get impartial advice, the best prices and delivery times and a dedicated project manager giving you all the technical support you need for complete peace of mind.
