

Let FG Library Products help you to release your full potential

FG Library Products are a market leading, design led supplier of shelving and furniture for libraries. We will bring a wealth of award winning experience to your project whatever your budget and aspirations.

Our reputation has been built over many years through listening to our clients, offering unparalleled levels of service and consistently exceeding expectations.

Our company ethos is based on having a friendly approach and on placing an equal level of importance to our suppliers, staff and customers alike, so from concept to creation the FG Library Products team will lead the way forward and demonstrate the true meaning of a working partnership.

No matter how large or small the project, we approach it with the same level of dedication and professionalism, working with you and understanding your needs to ensure that our products exceed your expectations in every way.

Our unique, FREE no obligation Six Step Design Service, enables us to work with you to unlock the true potential of your library. With our experience, we'll make sure that your library looks great, complies with government legislation and provides an exceptional environment for both you and your customers.

Our approach

A passion for design

The entire workforce share a passion for design which is at the heart of every project we undertake. We consider our highly skilled design team, who are used to working with librarians, architects and designers alike, the backbone of the company.

It is through their extensive knowledge of available materials and production techniques that we are able to offer our clients the perfect solution.

Created by craftsmen

Our experienced and highly skilled cabinet makers and engineers pride themselves on having the traditional values so essential in ensuring that the highest levels of craftsmanship are continually maintained on each and every item we produce whatever its scale and complexity.

Unrivalled levels of service

The FG Library Products team are dedicated to delivering an unrivalled level of service with attention to detail being at the forefront of every department and every project we undertake.

“We pride ourselves on the quality of our workmanship, service and total commitment to the complete satisfaction of our customers”

FG Library Products - Your first choice for library projects

As a market leading, design led supplier and manufacturer of shelving and furniture for libraries, IT Centres and Resource Centres and with over 60 years combined experience, FGLP can bring a wealth of award winning experience to library projects of all scales and budgets.

A holistic approach and attention to detail are the foundations for FGLP's unique, no obligation, six step design process which enables all stakeholders to easily and simply realise their libraries full potential from the initial concept through to creation, installation and beyond.

Promotion and display

Display, presentation and promotion of products and services is an increasingly important element of successful libraries and learning resource centres.

FGLP offers an unrivalled range of display systems to suit all functions and styles. Options include display units as an integral part of the shelving system or freestanding units for maximum flexibility.

Multi-media display

The FGLP range of multi-media display units are available in a variety of sizes, styles and finishes. This variety provides the flexibility to allow for the units to co-ordinate with the décor and fit within available space.

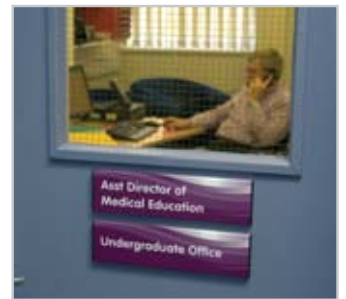

Carefully designed construction ensures user-friendly styles, allowing the media to be displayed face-on, spine or angled.

Signage

FGLP are experts in the design and provision of a comprehensive range of signage and display items.

Our aim is to enable Libraries and resource centres to easily and simply maximise the visual appeal and ease of usage of their libraries whilst complying with all regulatory and DDA legislation.

Our Goal Post signage solution remains our most popular and versatile signage option.

- flexible and easy to use & relocate
- Utilise either magnetic or self adhesive fixings
- Choice of goal post colours available
- Huge choice of fonts, colours and designs
- Option to print both sides for maximum visibility

FGLP are able to offer a complete library signage service to enable you to create a co-ordinated unique and functional solution to all of your library signage requirements

Graphical solutions

Our new large format graphical solutions service also enables you to easily create vibrant themed & co-ordinated areas or zones that are unique to your library or resource centre. We can utilise your existing artwork or images or you can choose from over 2 million images.

Shelving systems

FGLP are able to supply a huge range of library shelving systems to cater for all tastes and budgets. With 7 distinct ranges of shelving available and literally hundreds of different finish options, you can be sure to find a range of library shelving that matches your needs and your budget.

And if you can't find what you're looking for, with our bespoke shelving manufacturing capabilities we can make library shelving to your exact specification.

Reflection

Reflection is a traditional cantilever shelving system proven to be cost-effective and robust across thousands of libraries.

Fully compatible with the original Reska shelving, Reflection is an extremely versatile shelving system ideal for both academic and public libraries.

An almost limitless range of design based end panels is also available to ensure that whatever your requirement, we will have an option to suit you.

Optional End Panels

Calypso

The Calypso shelving range is a hugely versatile shelving system that provides the perfect blend of style and functionality. High quality manufacturing processes and materials ensure that the Calypso system is a competitively priced premium product.

The huge choice of colours and the revolutionary 3 way shelf positioning system ensures that the system will not only look great but will provide the flexibility that is required for today's demanding library environments.

Colour Combinations

The Calypso shelving system can be tailored to your individual colour requirements. The choice of shelf colours and inlay strips ensures that you can easily colour code areas of your library, or simply make a bold colourful statement.

Libris

The Libris shelving system is a real wood veneer based system that offers the flexibility of both wooden and metal shelves depending on budget.

Libris Timber

With wooden shelves, Libris Timber is an all wood system

Libris Steel

Where budgets are more restricted, the wooden shelves can be replaced with steel which can result in significant cost savings

Both Libris Timber and Libris Steel are durable, represent great value for money and are ideal for use in areas where image is important.

Standard finishes include: beech, oak, maple, ash and cherry. Other wood finishes are also available.

Shelving systems

Uniflex

Uniflex has been developed for use in both academic and public libraries. The system maximises all available height space with its ultra-low base shelf.

The square steel section frame ensures high durability. The unparalleled choice of optional extras makes Uniflex ideal in libraries where flexibility is of paramount importance.

Quadra

Quadra is a unique shelving system incorporating a square section frame which is ideal for heavy duty public areas.

Punched frames and end panels in various colour options soften the image to produce a designer engineered style.

Ideally suited to young adult areas, Quadra provides an effective contrast to conventional areas.

Rondea

The Rondea Shelving System has been specifically developed to satisfy the growing trend for open space enhancing layouts.

Constructed from 28mm diameter steel tube with the option of both steel and wooden shelves, the Rondea shelving system is designed to create a lighter appearance that is equally at home in large or small libraries. Rondea has the option of either various end panels to allow a co-ordinated look or no solid end panels at all, therefore allowing its aesthetic qualities to be portrayed through its unique frame.

Spira

Spira is a new generation shelving system manufactured using 35mm steel section framework. The softer lines of Spira provide a warmer feel which is ideal for use in public libraries.

The combination of materials and the open ends create a hi-tech, clean image.

Children's products

Creating a sympathetic environment is essential to a successful children's area. FGLP are experts in the provision of safe, durable, fully co-ordinated children's areas that will appeal to both adults and children alike.

With a huge range of products available including shelving, kinderboxes, special size seating and soft play items, you can be confident that your children's area will keep little ones safe and happy and will be a valuable addition to your library

Themed areas

In addition to our signage and graphical expertise, FGLP are able to combine the experience of our skilled engineers and craftsmen to provide designated areas constructed in the themes of your choice

- Create areas that are themed to promote your local heritage
- Ideal for children's areas – Capture a child's imagination by creating castles, jungles, ships etc. for maximum appeal and impact
- Create areas that are both secure and contained and which have huge visual appeal
- Brings a new unique dimension to library decors
- Can be co-ordinated across shelving, furniture carpet and wallcoverings

Counters and pods

It is true that you never have a second chance to create a positive first impression and a reception counter from FGLP will go a long way to enhance this.

All of our reception counters can be manufactured to as simple or complicated a specification as your project

dictates and with the integration of such materials as marble, granite, glass and metal together with the natural look and feel of real wood, beautiful concepts can be achieved...

...the possibilities are endless.

Libris

The Libris reception counter has become one of the leading modular counter systems sold in the UK today.

The choice of over 150 standard modules and numerous wood veneer finishes enables Libris to be adapted to satisfy even the most specific of requirements.

All of our Libris reception counter tops offer the choice of either easy-use marmoleum or wood veneer with solid wood lipping to provide a robust and durable reception counter that will perform exceptionally for many years to come.

POD - a counter-revolution

The new Pod compact reception counter is one of our most versatile and flexible counters to date.

The small footprint makes it perfect for use in smaller libraries or as a drop-in desk, with the innovative design facilitating the easy and informal interaction of staff and customer.

With ample storage an integrated cable management system and a sturdy construction, the POD compact reception counter is both stylish and robust and with a huge choice of materials to choose from you can choose to make a bold statement or blend seamlessly into your existing décor.

A range of styles and colours are available and units can be static or mobile.

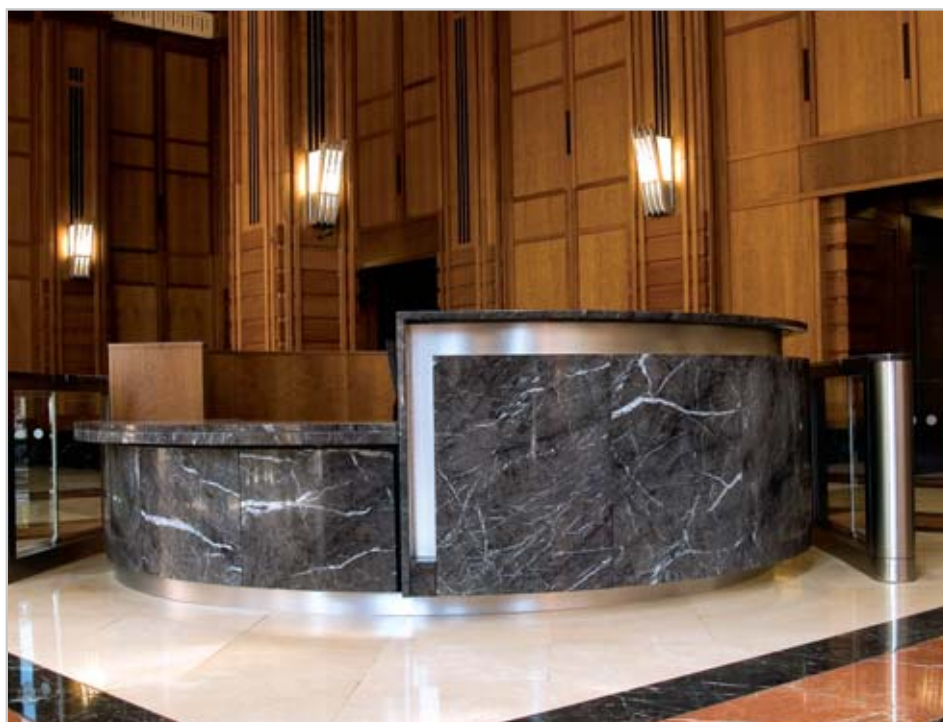

Dialog

Dialog is a new generation of issue counter, offering clean work surfaces with contrasting modesty panels.

The wide selection of wood and colour finishes allows Dialog to be specified for both contemporary and traditional libraries.

Bespoke reception desks

FGLP also offers the most extensive bespoke counter solutions in the UK enabling you to easily and simply translate your ideas into beautiful furniture that will both impress and inspire for years to come.

Furniture

Furniture is without doubt one of the most important factors in an efficient and effective modern library and as a result needs to be functional, attractive & flexible whilst representing great value for money.

There is not one single product to satisfy all projects which is why FGLP have developed one of the most extensive ranges available in the European market.

Study furniture

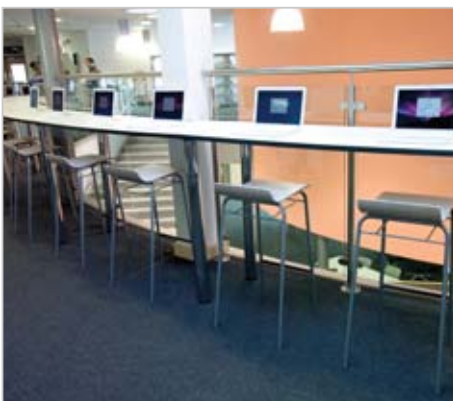

FGLP are able to offer a wide range of study furniture to suit every need and budget whatever your requirement and scale of project.

Contact us today to find out how we can help you find the perfect range of study furniture to suit you.

IT furniture

The FGLP ethos continues throughout its wide range of IT Furniture by offering a number of options from a single unit to a full IT suite. Our IT furniture is attractive and functional to suit all budgets.

Seating

Easy seating

Seating is an important aspect of the overall aesthetic of a successful library scheme that needs to be functional, durable and represent great value for money.

By multi-sourcing, FGLP are able to offer an extensive selection of seating including wood and metal frames with wood, plastic or fabric seats.

Casual seating includes module units, wood and metal framed, in single, two or three seater options. Contract quality fabrics from leading upholsterers ensure durability and colour co-ordination.

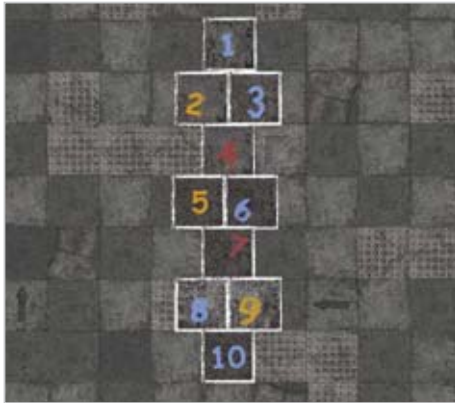

Soft seating collection

Offers an exciting new range of soft seating solutions all from British designers. Available in a wide range of colours and materials you can ensure that whether you want to blend seamlessly into your existing environment or make a bold new statement, we have the product for you.

Carpets - zoned areas

As part of its extensive service to clients, FGLP are able to offer a carpet design, consultation and installation service using the Milliken 'public sector' range. This extensive collection has been compiled specifically for public sector applications and includes a range of high performing designs that look stylish and offer excellent value for money.

Storage

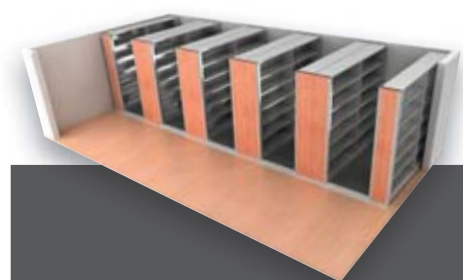

As part of the Frem Group which is one of the UK's leading manufacturers of complete storage solutions, FG Library Products are delighted to announce the launch of their comprehensive new storage range : Featuring five distinct product ranges FGLP are now able to ensure that whatever your storage requirement FGLP have the products & the expertise to provide the perfect solution for you. In addition, with FGLP's bespoke manufacturing capabilities

you can be assured that whatever the specification of your project, we will be able to meet it perfectly.

So whether it is a mobile or static shelving solution and whether it is on public display or for backroom use, FGLP have the experience and knowledge to make your storage problems a thing of the past and with our FREE No obligation, Six step Design Process, it could not be simpler.

Fremtrac

The Fremtrac high density mobile shelving system allows you to either halve the space required for your shelving or double the storage capacity within the same footprint of traditional shelving.

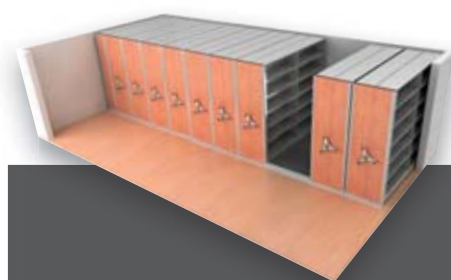

traditional shelving

traditional static shelving providing 120 linear metres of storage

half the space

reduce your shelf space, freeing up room for more productive uses of space such as additional desking, providing 120 linear metres of storage

double the capacity

double your storage capacity within the same footprint as traditional shelving systems, provide up to 240 linear metres of storage - a 100% increase

Fremwall

Fremwall is an infinitely flexible storagewall which can be individually designed to meet your exact requirements. Fremwalls' structural design allows use as either: standard storage cupboards or, as room dividers complete with pass through doors thus eliminating the cost and loss of space associated with standard walls and partitions.

Fremtrac slide-a-side

The Fremtrac slide-a-side mobile shelving system maximises the flexibility of the Fremtrac system and has been designed as the ideal solution for corridors and walkways. Fremtrac slide-a-side mobile shelving – enables shelves to be moved from side to side to reveal shelving behind.

Moduloc

FGLP are delighted to introduce Moduloc, the new high density range of secure modular lockers. Ideal for scenarios where secure personal storage is a prerequisite. Moduloc is an extremely efficient storage option that can be configured to suit any size or space requirements.

Additional services

FG Library Products is a market leading design led manufacturer and supplier of shelving, counter and furniture systems for libraries, IT centres and resource centres.

In addition to supplying all of your library product needs we have developed the following additional services to take the hassle out of creating the perfect library environment.

Complete turnkey solutions

FG Library Products have enormous experience in providing our clients with complete turnkey solutions. Our experience has shown that clients that are not used to co-ordinating all of the complex elements of a library fit-out can incur significant extra costs and time delays.

We are on hand to co-ordinate and implement all aspects of your library interior from partitions, painting & decorating, suspended ceilings and flooring to any of the more technical elements that may be required.

We are also happy to liaise and co-ordinate with any third parties you may have contracted to ensure that your library fit-out is seamless, hassle free and occurs when you want it.

Stock relocation service

FG Library Products have extensive experience of relocating stock, either as part of a refurbishment or for routine maintenance. We are able to offer a full stock relocation service, taking care of all of the elements to ensure that your stock relocation is seamless and hassle free.

Ask the experts

Commissioning your ideal library need not be a daunting task

- with our unique, **FREE** no obligation Six Step Design Service which will guide you seamlessly and effortlessly from concept to installation
- our experience and commitment ensures unparalleled levels of service and attention to detail from our initial consultation to the complete installation
- whatever level of service you require and whatever the scale of your project, we are on hand to guide you through every step of the way

Step one

An experienced consultant will visit you at your library to fully understand your specific requirements, what you need to achieve and the type of products/graphics you require. We will also conduct a survey of the relevant area to ensure that our library solutions will perform on a practical day-to-day basis and conform to any legislative requirements which may be required.

Step two

Our consultants will then liaise with our team of experienced, dedicated design professionals to ensure that your brief is effectively communicated and accurately translated. Using the latest CAD software, our design team will now provide a detailed scale drawing of the proposed storage solution. The drawing will include a floor plan of the library area with the proposed furniture in-situe. We will also show the detail of the concept via a section drawing as well as 3D drawings of the proposed products.

Step three

Our consultant will now present you our concept to ensure that we have accurately translated the brief and to take on board any tweaks, amendments or suggestions.

Step four

Our team of designers are able to offer 3D photo-real imagery of our concepts which bridge the gap from concept to creation and which can aid substantially with any internal approvals which may need to be gained. We are also able to supply sample swatches of the chosen materials and proposed visuals of the graphics – everything is done with your full approval.

Step five

Our team of skilled engineers will now turn your concept into reality, using traditional skills and the latest technology to ensure the highest levels of craftsmanship are continually maintained.

Step six

Our experienced installation teams will now install the finished products, taking care to ensure that the whole process is as seamless and hassle free as it can possibly be. In addition to the installation, we can also take care of any additional elements of the interior, from signage, painting and decorating, suspended ceilings and flooring to any of the more technical elements that may be required. We are also more than happy to liaise and co-ordinate with any third parties you may have contracted.

Environmental commitment

Sustainable development has always been an integral part of our design process

FG Library Products are committed to creating a better environment, through:

- The strategic planning of our business.
- By continually reviewing and improving our activities, products and services.

Sourcing of materials

Wherever possible we aim to manufacture products using recyclable materials and/or materials which have a valid chain of custody certification.

Efficient production and installation?

We strive to minimise all energy usage wherever possible and constantly review all of our practices to reduce, reuse and recycle our waste wherever possible. FG Library Products utilises minimal packaging ensuring minimal wastage. All pallets are returned to the factory for re-use. Waste steel is recycled. Wood off-cuts are used in our certified carbon neutral wood burner.

Greater longevity

Modular design minimises wastage, provides cost-effective solutions and facilitates the refurbishment and maintenance of our products. Wherever possible we ensure that our products are fully relocatable.

Cradle to the grave...

All of our products are manufactured from recyclable materials wherever possible.

The FG Library difference

FG Library Products are experts in all aspects of the design and manufacture of library products. We have many years of experience that we draw upon for every project we undertake.

Our success stems from our in-depth understanding of the challenges placed upon library environments and the interaction between furniture, staff and customers, all within the context of today's busy societies.

We use our experience to adopt a holistic approach, to deliver solutions that are practical, functional and aesthetically pleasing and which:

- will cost-effectively maximise all available space
- will function perfectly on a day-to-day basis
- will inspire and motivate both staff and customers

...the perfect partner for your library project

storwell

■ ■ ■ S Y S T E M S

More storage in less space

Working with a specialist partner with over 28 years experience in the storage sector is just one reason why you can trust Storwell Systems with your enquiries.
