RAP Interiors

Discover how a school refurbishment can dramatically improve your students' learning potential.

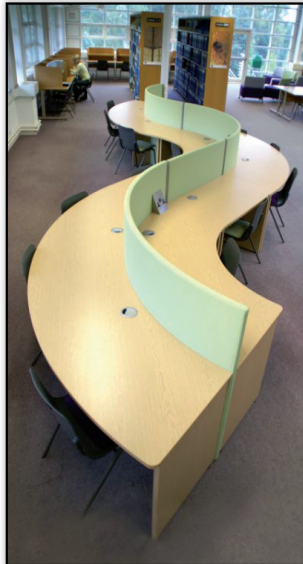

By modernising your school you could increase the performance of your students because they will be even more keen to come and work in an up to date and modern environment. Furthermore with our great range of ergonomically designed furniture, your students will feel comfortable and ready to work at their best.

Not only could your students perform better, but with our space planning service you could find and make use of space you never knew you had! Not to mention creating a more organised and efficient working environment.

RAP Commit to:

- Maximize your potential space with our innovative 3D bespoke designs.
- We adopt the Vetting & Barring system.
- Full Health & Safety appointed officer.
- We respect the school as a workplace and therefore minimise noise levels & any inconvenience.
- Competitive pricing.
