ALPHA BOOSTER

Industrial Cold Water Stationary Pressure Washer

- **Powerful Cleaning**
Pressure up to 180 bar and water flow up to 2000 litres per hour for excellent cleaning effects
- **Easy To Use**
Simple and easy to understand control panel. Easy to operate on-off button and detergent system - just connect the hose and get to work!
- **Low Noise Levels**
Slow running, 1450 rpm motors mean low noise levels for the operator when working in close proximity to the machine
- **ERGO System**
Intensive use of a pressure washer can cause operator fatigue, so the spray gun, lance and couplings have been engineered to combat this and improve efficiency.
- **Electronic Control System**
The ALPHABOSTER 5 can be equipped with an external electronic control system that allows use of certain factory mounted options such as remote control or coin boxes, 2 x detergent. The ALPHABOOSTER can then be adapted to suit a range of applications

KEY FEATURES

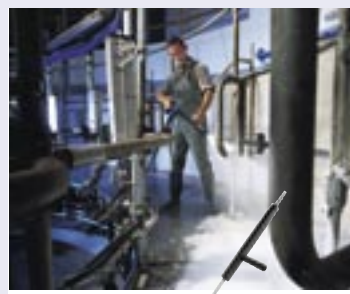

Wash Brushes

A selection of long, short, fixed and rotary wash brushes are available which will aid the removal of stubborn dirt in out of reach places

Powerscrub

Rotating nozzle bar for fast, effective cleaning of flat surfaces.

Foam Lance

Ensures a thick and consistent application on all surfaces which increases the efficiency of the chemical

Hose Reels

Selection of hose reels available including trolley or wall mounted. These ensure the hose is stored in the tidiest and most secure manner.
