

PALLETS

Plastic pallets is where it all started for Contraload. We are proud to state that we are one of the leading pooling companies in the world when it comes to tracking and tracing high quality plastic pallets in the B2B environment. Hygiene, Safety, Environment and Financials go hand in hand when it comes to our pooling services across Europe.

With a standard range of different plastic pallets Contraload is able to provide solutions no one else can. If you need a plastic pallet, we either have the right pallet in our range or will find the right pallet for you, tailored to your product and supply chain requirements.

Plastic pallets have no secrets for us...

WHAT IS THE BEST SOLUTION FOR YOUR COMPANY?

Every supply chain is unique, but can have a lot in common with others. Depending on where your company is in relation to your customers (geography), the volumes you are producing and sending (quantity) to each customer, the weight and sensitivity of your products and how long your products stay on the shelves (cycle time) the supply chain costs can vary quite a bit. Contraload can give you independent expert advice on the best loadcarrier for the job and in most cases build a tailored or standard service around your exact logistical requirements.
