

The **Construction COSHH Assessments** software package has been specifically designed to assist organisations working in the construction industry to comply with their duties under the **COSHH or Control of Substances Hazardous to Health Regulations 2002 (as amended 2004)**. The software offers well over 100 pages of comprehensive guidance/information and completed preliminary COSHH assessments, all of which have been professionally prepared by experts in both health and safety, and construction. The software includes:

- A detailed COSHH Policy and Guidance Manual
- General information on why COSHH Assessments are required; the legal requirements; when, how and who should carry them out
- A health surveillance form pro-forma
- Blank COSHH Assessment forms/templates for subsequent completion by the software user
- A two page COSHH information poster
- 40 completed preliminary COSHH Assessments supplied in MS Word format for key substances and products which are commonly used within the construction and building industries
- Each assessment assesses the risk, specifies control measures and where applicable provides reference to additional guidance information

## Why do I need the software?

The **Construction COSHH Assessments** software package can help organisations to:

- Carry out and manage works more safely
- Demonstrate how compliance with Health and Safety legislation is achieved
- Win more and larger contracts
- Lower insurance premiums
- Demonstrate competence to main/ principal contractors when tendering for work
- Pre-Qualify for local authority work

The **Construction COSHH Assessments** software package therefore offers companies a highly cost effective and efficient solution to assist in the daily management of, and control of hazardous substances.

## Key Features Include:

- Complete COSHH Assessment solution written by experienced professionals
- Comprehensive guidance on how to prepare your own COSHH Assessments
- Detailed COSHH Risk Assessment template
- Easy to use graphical interface which requires no special training or knowledge to use
- Operates within Microsoft Word
- Fully customisable documents which can be added to and amended to reflect changes in legislation and company practices

## Who is the software for?

The **Construction COSHH Assessments** software package has been specifically designed for all types of organisation, from the self-employed to multi-national organisations such as:

- Builders/Civil Engineering Contractors
- Groundworkers/Demolition Contractors
- Scaffolders/Roofing Contractors
- Electricians/Plumbers/Mechanical Engineers
- Shop Fitters/Painters & Decorators
- Architects/Engineers/Surveyors etc.
