

## The DDA Access Audit

software has been specifically designed to assist property managers, surveyors, auditors and consultants to undertake Access Audits to assess the level of compliance with the requirements of Part III of the **Disability Discrimination Act 1995**, this is achieved by:

- Addressing the requirements of **Part III** of the **Disability Discrimination Act 1995**
- Considering the requirements of **Part M** of the **UK Building Regulations**
- An interactive database system for use on a laptop, desktop and handheld Pocket PCs
- A Pocket PC based solution for undertaking **DDA Access Audits** and for collating electronic data collected in the field
- A comprehensive electronic checklist of over **160 key** access criteria
- Providing, where appropriate, additional guidance and information on the subject by simply tapping on the audit item
- Survey notes and action points can be recorded electronically as the audit is undertaken
- An electronic **Action Plan** is created to assist in the identification and management of the Accessibility of buildings audited.
