

Eter-Color

Architectural fibre cement cladding

through coloured
durable facade

beautiful buildings

architectural fibre cement

natural appearance

Eter-Color is a through coloured architectural fibre cement material that offers elegant shades of natural colour providing a unique aesthetic effect.

Each panel is characterised by fine sanded lines and naturally occurring hues within the material that enhance the natural matt appearance which comes to life with the effects of light and shade to provide a distinctively beautiful facade.

Health and fitness centre | Architect: Witteveen Architecten BNA BV | Colour: Pebble

Office building | Architect: Bert Schellekens | Colour: Pebble

Social care centre | Architect: OCMW Kortrijk | Colours: Sandstorm, Hessian

Apartment block | Architect: JSC Panprojektas | Colours: Linen, Pebble, Sahara

Sports centre | Architect: ULB Erasme | Colour: Calico

Apartment block | Architect: Botnick Architecture & Engineering | Colour: Calico

Private house | Architect: Beishuizen Ongerling Smets Architecten | Colour: Linen

Office building | Architect: Groupe 3 Architectes | Colour: Calico

Colour range

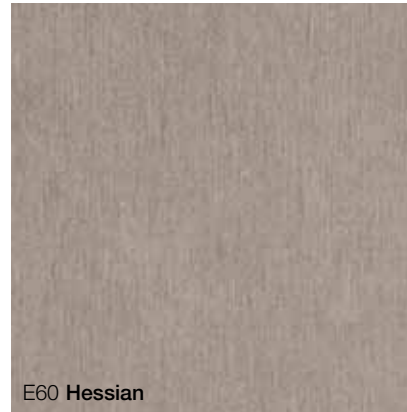

Eter-Color* is available in eight organic through colours where the pigment is held within the mass of the board to provide a timeless colour that fits perfectly into contemporary architecture.

* Naturally occurring white flecks may be visible which add to the aesthetics of the material

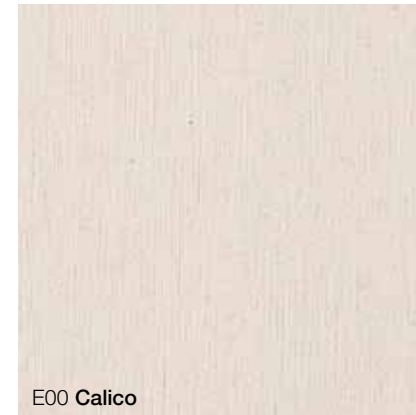

E20 Pebble

E60 Hessian

E30 Sandstorm

E00 Calico

E10 Linen

E50 Pistachio

E90 Chalk

E40 Sahara

A+
 Marley Eternit's fibre cement cladding can achieve an **A+ rating for the lowest environmental impact** in the BRE Green Guide to Specification*.

Eter-Color cladding provides a pure beauty that is intriguing and arouses curiosity. This distinguished freshness provides elegance to the overall architectural fabric.

Advantages of Eter-Color

- ✓ Through coloured and natural appearance
- ✓ Class 0 and EN 13501-1 fire performance and classified to A2-s1, d0 non-combustible
- ✓ Excellent weather and chemical resistance
- ✓ Durable cladding material
- ✓ Eter-Color panels have an installed life expectancy of at least 50 years

Applications

- ✓ Rainscreen cladding
- ✓ Weather boarding
- ✓ Interior wall lining
