

# 8200 Oxygen Permeation Analyser

## Simple, cost effective oxygen permeation testing for packages and bottles

### Applications

- PET bottles
- Containers
- Canisters
- Flexible pouches
- Bags

### Features & Benefits

- Simple & quick changeover of samples
- Easy to use software
- Versatile permeation analysis
- Designed specifically for packages
- Low cost system
- Accuracy traceable to current NAMAS/N.I.S.T. standards

The Systech Illinois 8200 is ideal for oxygen permeation testing of packages and bottles. This two station analyser is the economical solution – it incorporates the reliability and wide measurement range of our leading permeation instruments but is designed to be cost effective.

The 8200 offers versatile permeability analysis of containers, canisters, pouches, bags, closures and more. The removable adaptors offer a range of testing methods and can even be tailored to a specific requirement.

It has the ability to evaluate a wide variety of barrier alternatives and their corresponding performance.

The proven coulometric sensor provides reliable, repeatable and accurate measurements time and time again.

Simple windows based software means the permeation analyser is easy to set up with QuickStart stored testing configuration settings and clear concise results.

No special gases are required, all you need is pure nitrogen.

Conforms to: ASTM D-3985 ASTM F-2622 ISO 15105-2 DIN 53380 JIS K-7126  
Electromagnetic Compatibility Directive 89/336/EEC Low Voltage Directive 73/23/EEC

# 8000 range of Oxygen Permeation Analysers

Systech Illinois' range meets the requirement for the testing of any application.

## 8001

533 x 533 x 305(mm) 28.1kg  
2 stations for films or packages,  
precise humidity control, can switch  
between wet or dry samples within  
minutes.

## 8200

533 x 533 x 305(mm) 28.1kg  
2 station for films or packages.

## 8001L

533 x 533 x 305(mm) 28.1kg  
As 8001, with new coulometric oxygen  
sensor.

## 8501

356 x 356 x 279 (mm) 18.2kg  
Reduced specification single station  
for film or package, dry test only.

## 8002

533 x 533 x 305(mm) 28.1kg  
As 8001, but tests only dry or wet  
(assumed 100% RH).

## 8700

760 x 590 x 350 (mm) 65kg  
11 stations for films or packages.

## 8003

533 x 533 x 305(mm) 28.1kg  
As 8001, but tests dry only.
