

VOTEX[®] Super Bingo

UNIVERSAL ROTARY MOWER

Votex has united the characteristics of the rotary mowers PT and Bingo into a new mower named the "Super Bingo". This machine is a universal rotary mower made for pasture topping, orchard mowing and to cut grass on recreation grounds, playing fields and the like.

The frame has been made particularly rigid by using a box-type construction on the front and rear side. Long skids on the side and grass guides between the blades in a combination with a smooth underside prevents filting and scalping, making large capacity and increased working speeds possible. The renowned Votex "Duplo" blades excel in superior cutting quality and an excellent spread of the cut vegetation. The Super Bingo rotary mower has a particularly attractive price/quality ratio

Large steel covers for easy access

- Universal rotary mower
- Overlapping blades
- "Duplo" blades for excellent cutting quality
- Even spread of the cut vegetation
- Very strong gearbox with spiral bevel gears
- Solid Votex quality

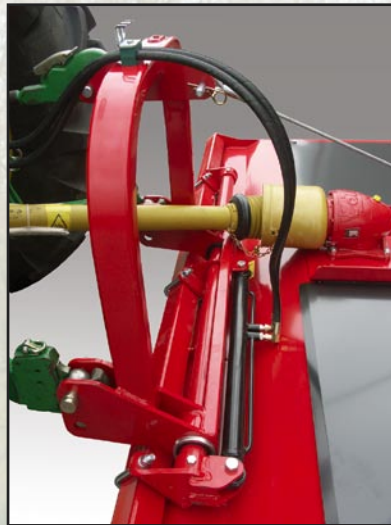

Smooth underside and partitions.
No grass transport between the blades

Ground roller

Swivel wheels 190x8

Hydraulic side shift

Front-trailed linkage+ chain guard

- High capacity due to smooth underside and grass guides between the blades
- Adjustment of the V-belts by split pulleys and spacers. No jockey pulleys required!
- High-capacity V-belts. Easy to change without having to remove the blade
- Bearing houses with adjustable tapered roller bearings
- Skids for excellent ground contours following
- Stepless side shift linkage

Options:

- Universal PTO shaft with freewheel
- Front-trailed version
- Chain guard
- Swinging cutting/chopping blades
- High-speed gearbox (more shredding)
- Quick three-point linkage with lengthways transport
- Mechanical/hydraulic side shift
- Indirect blade drive (larger offset)
- Swivel wheels (400x4 or 190x8)
- Back roller
