ELECTRICAL ACCESSORIES

# About Focus SB

Focus SB is a British company that has been dedicated to manufacturing electrical accessories of unparalleled quality for over 30 years. Quality components, quality inserts and quality materials all brought together in a range of designs suitable for stylish homes and commercial interiors of distinction.

Manufactured in Sussex, every plate is hand finished by our skilled crafts people to ensure a product that is functional, beautiful and made to last a lifetime.

The ranges are designed to complement elegant period properties through to the most contemporary and design led interiors. The comprehensive options, materials and finishes are ideally suited to the aesthetic demands of architects and interior designers along with the technical requirements and support to make installation straight forward for electrical contractors.

## Bespoke Service

All our ranges have very extensive plate options, but for specific special requirements we offer a bespoke service. We can design and manufacture plates for every conceivable application to match the standard plates. This is a unique service enabling you to realise the most exacting of customer requirements.

## Finishes

We have a comprehensive range of stunning standard finishes for you to choose from, alternatively we can create Bespoke finishes to suit your needs.

### Standard Finishes

- Free delivery to mainland UK
- No gaskets required
- No long lead times
- No minimum order charge

## Audio Visual Accessories

## Bespoke Service

Our Bespoke service enables you to have Audio Visual accessories how you need them. We have the ability to produce many different combination plates to meet your specific requirements.

Choose from our range of stunning styles and finishes to match in with your standard plates.

Made to measure electrical accessories how you want them, when you want them. Or in-house design and engineering division are experts in tool design and manufacture. From initial design and manufacture of prototypes, to short run or mass production, we can help.

No long lead time or minimum order charge.

# Hotel Accessories

We supply bespoke electrical accessories to many top hotels the world over. Tailor-make your accessories to suit the layout of your hotel rooms and the needs of your guests.

We can manufacture exactly the accessories you want, including American and European sockets all finished to the highest standards.

Some of the hotels we have worked with include:

- Carlton Tower
- Corinthia
- Churchill
- Intercontinental Hyde Park

- Royal Garden
- Royal Lancaster
- St Pancras Renaissance

Card Switches

Primed White

Available in a range of finishes.

### Card Switch 1

A double (reinforced) insulated switch suitable for high inrush currents experienced in lighting circuits.

- 21 amps resistive - 8 amps inductive (2HP motor) - 5 amps lamp load - minimum 100ma
- Switches tested to BS EN 61058 which requires the following overload performance: 50 Cycles @ 72 amps (250 VAC - cosphi 0,5)
- Where frequent high loadings are likely to be experienced a double switch configuration can be specified for extended life

### Card Switch 2

A low power switch designed for high reliability and extended life.

- Switch rating 5amps resistive
- Mainly designed for use with contactors (relays)

Seek light included to aid location in low light conditions (requires a neutral connection). Switch supplied as standard in "normally open" configuration however "normally closed" is available on request where it is required to eliminate contactor coil hum.

The Primed White finish is designed to be painted to help the plate merge with the interior colour scheme. Ideally suited to walls using flat colour or paint effects, special finishes, polishes or specialist paints. Primed white is a standard finish on the Ambassador and Morpheus ranges and is available across most of our other ranges as a special order. We can also spray plates to match any RAL and BS colour.

## Designer ranges

### With Wandsworth inserts

The following pages feature our high class Designer ranges, all feature the highest quality British made Wandsworth inserts for exceptional reliability (with the exception of the Horizon, Elizabethan and Titan ranges).

Wandsworth have been manufacturing electrical wiring accessories for over 100 years and have a reputation for uncompromising quality, design, innovation and superior finish.

From Prism Clear Acrylic to Morpheus screwless shown above, these ranges will give designers, architects and specifiers a large palette of styles and finishes to work from together with a top of the range product that will last and last.

### Adam Lux Frame

The Adam lux frame design is available in a French gilt finish and incorporates a leaf design. Lux Frame ranges feature a two-piece plate combination that can incorporate split finishes to special order, creating a stunning visual effect. Manufactured to offer unrivalled quality, this decorative range includes metal rockers with white or black trim.

Ambassador

Ambassador  
Square Corners

Our most popular flat plate, the superior quality Ambassador range has been designed to suit both traditional and contemporary interiors.

Available in a wide range of stunning finishes.

As well as the extensive range of finishes and various switch styles available with the Ambassador range, specifiers can also choose between rounded corners (previous page) or square corners for a sharper look, as shown here.

Deckle Edge

Dorchester  
Lux Frame

Traditional with a contemporary twist, the new Deckle Edge range from Focus SB boasts a stylish slate finish with hammered edges for a unique look, ideal for old style interiors.

The Dorchester range is pure indulgence. This luxury product offers superb styling with versatility, enabling you to choose contrasting finishes for the frame and inner plate as shown above. Perfect for both modern or traditional interiors.

Elizabethan

Georgian

The Elizabethan range has an attractive wrought iron effect in semi matt black finish with matching black Crabtree inserts.

The plates are produced from hammered brass material and finished in a durable low bake black acrylic paint. Ideal for period properties.

The decorative Georgian rope design mostly includes Wandsworth series 2 grid fix inserts. All plates are lacquered to maintain plate durability and finish, this high specification range will add a touch of luxury to traditional style interiors.

Horizon

Horizon  
Square Corners

The Horizon range with Crabtree inserts features a contemporary styled flat plate to suit modern interiors. Available in a variety of materials and finishes, Horizon is a favourite amongst specifiers.

The Horizon range also has Allen Key fixings for a unique look with the benefit of a secure attachment.

The Horizon Square Corners range features all the stylish qualities of the Horizon range but with squarer corners for a sharper look.

Jacobean

Kensington  
Lux Frame

The Jacobean range is a unique wooden design manufactured from solid oak to create a high quality and natural looking product. Available in a choice of natural, light, medium or dark oak with white or black trim.

All wood used in the Jacobean range is sourced from managed forests in North America and Europe.

Timeless elegance, the Kensington range with a rope plate design has been designed to offer unrivalled quality.

This luxury range features a two-piece plate combination for contrasting finishes if required.

Mayfair  
Lux Frame

Morpheus  
Screwless

The Mayfair Lux Frame range, as its name suggests, is a high end product offering timeless elegance and style. Manufactured to the highest standards, Mayfair can incorporate split finishes within its luxury beaded frame design.

For the sleekest of finishes, choose the Morpheus screwless range featuring a new slim line plate.

Produced to the highest standards, Morpheus is a stylish, discrete solution designed to suit the very finest environments.

Must be fitted on good flat walls.

Prism  
Clear Acrylic

Prism II  
Screwless Clear Acrylic

Why hide your wallpaper?

For a truly discrete wiring accessory solution, choose the Prism Clear Acrylic range which allows your chosen wall covering to shine through by use of a template.

An innovative solution for modern wiring installations.

The Prism II range brings you all the unique features of the Prism range but is screwless for those looking for an even sleeker look.

Regency

New Sheraton

The decorative beaded Regency range is a stylish addition to any period property.

Featuring metal rockers and a lacquered finish to maintain durability and reliability, this top quality range will last for years to come.

The New Sheraton range offers the market a high quality and attractive stepped plate design.

Its simple design will complement most types of interiors.

Titan

True Edge

As its name suggests, the Titan range offers a robust yet stylish solution with Allen Key fixings for a strong, secure attachment and Crabtree inserts for easy installation.

Produced with the highest quality craftsmanship and materials, Titan's slim, sleek design will enhance any environment.

Give your project the edge.

The True Edge range is as sharp as they come. Its up-to-the-minute styling will harmonise with today's modern interior spaces, including the distinctive Allen Key fixings.

Victorian

## Contractor ranges

### With Crabtree inserts

If you're looking for style at a competitive price, choose from our contractor ranges with Crabtree inserts renowned for their outstanding quality and excellent value for money.

Designed specifically with the contractor in mind, the Cheltenham, New Lincoln, Newbury and Worcester ranges are all manufactured to the highest standards in our Sussex factory.

Simple and understated, Victorian is equally at home in a city apartment or a period manor house.

Featuring a rounded raised plate design, this comprehensive range has been developed to address most installation requirements.

Cheltenham

New Lincoln

This attractive roped edge range is designed to suit traditional interiors. Manufactured to the highest standards, Cheltenham is a cost effective solution for older style interiors.

New Lincoln is a timeless stepped plate design for those looking for a stylish range within a budget. A classic design that will complement most interiors, New Lincoln will bring a touch of class to your interior.

Newbury

Worcester

Simplicity is key with the Newbury range. Its understated design will complement both modern and traditional interiors and with Crabtree inserts, it is a flexible, cost effective choice.

Choose from our range of stunning finishes to suit your interior.

The beaded Worcester range is designed to complement period interiors.

Choose from our range of stunning finishes to create the look that's right for your project.

# HAL

Lighting and Building Control

Control lighting easily and simply from one control plate or remote control with the HAL home automated lighting and building control system.

With simple to use controls, HAL can be used to centrally control lighting, electronic blinds, curtains, shutters, gates, roof lights, television projector screens and more.

# Wise Controls

Wireless Garden Solutions

The Wise Controls wireless system can be quickly and simply installed to any indoor or outdoor environment, giving you the freedom to control lighting and switched circuits by remote control. Suitable for commercial or domestic use, once programmed, wireless radio switches can be placed in any position throughout the home as no cables are needed between the Wise receivers and the switches. The Wise system can even be set with a time clock switch to turn devices on when the home is empty.

# Control Plate Covers

# Custom Made Wallboxes

Focus SB can produce custom made cover plates for some of the electronic control systems from Lutron, Teleadapt, Wise and other systems suppliers.

Working with designers, specifiers, architects or contractors we can match finishes to existing or manufacture electronic control plates in styles to match our extensive range in all finishes.

- Manufactured to fit systems from control system suppliers such as Lutron, Teleadapt, Wise and other systems suppliers

- Can be produced to match existing electrical plates

Bespoke electrical accessories do not have to be confined to the size of "standard" wall boxes.

Focus SB can produce custom designed wall boxes in any size to suit the application you require, from one off runs to large volumes, we have the ability to meet your requirements, providing a complete solution to the bespoke accessories installation.
