

Connect 2 Cleanrooms move to New Premises

Connect 2 Cleanrooms and Cleanroomshop.com's office move is complete! Connect 2 Cleanrooms are pleased to announce that they moved to a new location in Halton, Lancaster.

The new premises are just over 15 miles away from the old address in Kirkby Lonsdale, where they had been for over 5 years.

There were a few main motivating factors which made the move appealing.

Space

There has been quite a jump from the old 3,000 square foot premises to a whopping new 10,000 square feet premises. Most of this is the enormous new warehouse. This will allow much more room to stock products, meaning keener pricing and even speedier deliveries for customers. A showcase cleanroom is planned to be built in 2013 allowing potential new customers to visit and experience a cleanroom environment prior to ordering. Supplier and customer open days are also planned for 2013.

The extra office space has allowed the company think about the layout of the office and to prepare for future expansion.

Their consumables division, Cleanroomshop.com, have their own space on the ground floor which is large enough to accommodate the extra **Business Development Coordinators** that will be recruited in 2013.

Upstairs, departments are more defined with designated areas. They are divided by glass partitions to keep the working together feel of an open plan office.

The design for the frosting on the glass partitions has been taken from the recently launched **cleanroom animation** that has allowed the injection of the new branding style into the décor, creating positive work areas – see www.connect2cleanrooms.com to view the modular cleanroom animation.

Location

The new location is just 1 mile away from Junction 34 on the M6. The M6 is the backbone of the UK and this strategic location will allow more flexibility and choice for distribution – keeping the costs low for customers.

As an international company it will be much more convenient for Engineers to be closer to international airports - both Manchester and Liverpool are within an hour's drive.

info@connect2cleanrooms.com www.connect2cleanrooms.com

Connect 2 Cleanrooms are still using many of the same local suppliers from their early days of business and are now much closer to them. This will allow them to continue building on the relationships developed over 10 years in business.

The closer proximity to Lancaster will also widen the recruitment base and will no doubt benefit from being so close to the historical city's reputable university.

This is a landmark occasion for the company and their new facilities will enable them to provide even better customer service.

Connect 2 Cleanrooms are excited to start 2013 with the energy and enthusiasm that this move has given them!
