

Thermocouple Wall Port TCWALLPORT

TM Electronics (UK) Limited

TME's TC Wall Port is a wall-mounted thermocouple temperature sensor monitoring point. This connection box is perfect for areas where a spot check is necessary on a test point with difficult or impaired access. It is primarily designed for use with fine wire probes which are attached to the temperature test point and left in-situ. It can also be used with other thermocouple sensors such as TME's Velcro, Magnetic, Rubber Patch and Immersion Probe.

**Useful for
any test
point with
difficult or
impaired
access**

Product Code TCWALLPORT

Price £16.00

(excluding probe/temperature sensor).

The box measures 52 x 52mm, is unobtrusive and easy to install. The front cover has a recess to take an ID or barcode label (ideal for use with TME's MM7000 ThermoBarScan barcode logging thermometer).

- **Boxed-in TMVs – Saves having to access the valve each time to check hot water temperature.**
- **Pipework including boiler flow and return points.**
- **Water Storage Tanks (with immersion probe)**
- **High-level test points – Avoid using ladders and Working at Height restrictions.**
- **Remote temperature measurement of cold storage, environmentally sensitive rooms or hazardous areas.**

KA02-20	20 metre	£37.50

TAPS Thermo Attachment Pads

Adhesive pads for K/TA01/2

Book of 100 pads **£7.50**

KPA01 1 Metre Fine Wire Probe

With attachment pad

£4.75

KVEL01 Velcro Pipe Probe

£25.00

KM07 Immersion probe for water tanks

£17.50

Compatible Handheld Digital Thermometers

MM2000 Waterproof Range

Robust, high accuracy thermometers

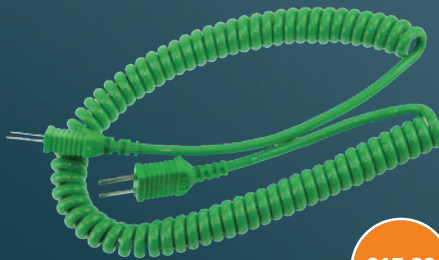

● Single input **£95.00**

● Dual input **£125.00**

KMPC2MP Connector Cable

Required to connect thermometer with TCWALLCON socket

£15.00

MM7000 ThermoBar Scan Thermometer

Unique Bluetooth Barcode thermometer Scans barcodes, logs temperature, downloads readings to PC/PDA/Mobile

● Software included **£375.00**
