

JODOWNS
 GLASS DESIGN

“I’ve not been this excited about bubble wrap since discovering it as a child!”

Tom Laskey-Downs
 Director
 Jo Downs Glass Design

Glass Protection

Jo Downs Glass Design is the UK’s leading supplier of handmade fused glass giftware - producing stunning bowls, coasters, mirrors for over 500 outlets nationwide.

Its no secret glass is a very delicate substance, products need protecting the moment it is removed from one of our kiln. Until now we have relied on copious amounts of newspaper, bubble wrap, sticky tape and foam to achieve this.

With the the Bubble Wrap Bags from 3A Manufacturing the chaos is history. We’ve massively reduced damage to inventory, saved huge amounts of handling time and dramatically streamlined our production process.

Chris Morris at 3A has been terrific to deal with - always under promising and over delivering. We moved from our old system to bubble bags within 2 weeks of coming across them on the internet.

I’ve not been this excited by bubble wrap since I was a young child, discovering the joy popping bubbles for the first time!
