The Olympics

The 2012 Olympics and Paralympics are only a couple of weeks away and whilst the Country is celebrating we also appreciate business must continue. At Universal we are looking at all the operational challenges posed by this event. We will have road closures, dedicated lanes, parking restrictions, not to mention the massive increase in traffic numbers to deal with.

The main areas that will be affected are Hadleigh, where the cycling will take place, Waltham Cross with the white water events, and of course large areas of London. All we ask from our customers in the affected areas, is to pass on any information that would help us "keep our wheels moving".

"COME ON TEAM GB!"
