

DROP TESTING

Release hooks help determine the ability of a product or container to withstand impact loads which may be imposed upon such items during normal transit conditions. L.A.B. Equipment, Inc's, Release Hooks can accommodate large and bulky items. Our full line of Release Hooks comply with ISTA, ASTM, ISO, and other internationally recognized standards.

TEST WITH CONFIDENCE

Release Hooks provide an efficient and ergonomic method of determining the ability to withstand the impacts of handling and shipment. The effects of manual stacking, loading, and dropping are easily duplicated through the ability of laboratory controlled drop tests.

Features

- Applicable for dropping loads of various configurations and dimensions
- Includes an enclosed foot activated drop switch
- Ruggedly constructed from solid steel and aluminum components

Options

- Non standard power source
- CE Compliance

DROP
With
CONFIDENCE

Payload Capacity	200 lbs/91 kg	500 or 1000 lbs/227 or 454 kg	3000 lbs/1361 kg
Operating System	Electrically Operated		
Construction	Solid Steel and Aluminum Components		
Cable Length	13 Foot cables from release hook to drop switch		
Utility Requirement	115V/1Ø/60Hz		

Due to our continuous commitment to product development, the above specifications and features may be modified without notice.
