

COMPOSITE GULLY GRATE SETS

Cost Effective Construction Equipment

Forecourt Solutions are pleased to announce the release of their range of lightweight composite road gully grates. Available in B125, C250 and D400 load ratings the gratings are hinged and have a lock down facility to prevent tampering by unauthorised persons. However in the light of the recent spate of thefts one of their principal benefits is their limited scrap value. Composite whilst being recyclable does not have the scrap metal value that appears to be making traditional grates of financial interest to the criminal element.

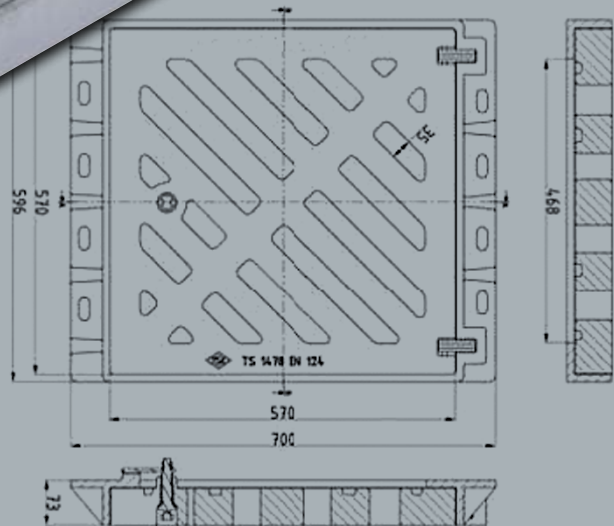

Available in a range of sizes:

CG4949 - 470 x 470 mm

CG3939 - 390 x 390 mm

CG5525 - 550 x 250 mm

Benefits

- ⊖ Low risk of theft
- ⊖ Load ratings to D400
- ⊖ Will not corrode
- ⊖ Lower traffic noise levels
- ⊖ Dimensional stability to temperature changes
- ⊖ Hinged and lockable for added security

Each grate is supplied as a match pair of frame and cover, are available in a range of colours and can be supplied with your logo if required.

Forecourt gratings are also available as cover only for use within your existing suitably sized frames.

Tested to meet the requirements of EN124 load rating requirements.

Held in stock in our UK warehouse for fast next day delivery.
