

Nilfisk GU 700 A

Dry Vacuum Cleaner

Large Area Carpet Vacuum

A powerful 3-motor vacuum with a huge 40 litre capacity dust bag and extra wide pick-up nozzle, the GU 700 A makes short work of cleaning large carpeted areas. Designed for maximum productivity this unit easily handles 700 m² per hour, and is the right machine to choose when the job needs doing quickly and thoroughly.

Double fast cleaning with a single pass

With the GU 700 A cleaning is fast and easy. A single pass leaves a thoroughly cleaned 65 cm wide area of carpet. Even large banquet rooms or carpeted exhibition areas can be thoroughly vacuumed with the minimum of trouble or time.

When obstacles are encountered, the GU 700 A has the manoeuvrability to clean around furniture and to make sharp turns. At a working rate of 700 m²/hour the productivity is excellent.

Operator comfort has been an important consideration in the development of this machine. With fingertip control and a comfortable working position as well as automatic shut-off when the squeeze trigger is released, the GU 700 A is both ergonomic and safe. Plus the enclosed filter bag prevents dust from getting into the air.

- Optional microstat filtration kit captures 99.94% at 0.3 microns
- Easy access to all components for simple service
- 8 brush height positions for effective cleaning of all carpet types
- Large nozzle opening provides maximum floor coverage without clogging
- Durable moulded polyethylene housing

65 cm wide path cleaned in one pass

Automatic machine cut-off when squeeze trigger is released

Huge dust bag means less emptying time

Technical specifications

Description	Unit	GU 700 A
Rated power vacuum motors	W	2x1000
Rated power brush motor	W	250
Total power, max	W	2250
