

A RANGE OF VACUUMS TO MEET
MOST EVERYDAY WET AND DRY
PICK UP NEEDS

RELIABLE PRODUCTS FROM A MANUFACTURER YOU CAN TRUST

The GWD 300 range of wet and dry professional vacuums incorporates all of the technical excellence and attention-to-detail that have made Nilfi sk-Advance the brand of choice amongst cleaning professionals around the globe.

All models are based on a modular design, which means that you can easily switch platforms if required. The Craftsman variants include a power socket for electric tools, automatic on/off, and delayed action shut down on automatic mode. The series also includes 35 and 75 litre durable steel tank versions for picking up oil, soot or similarly heavy-duty applications.

The GWD 300 range features no-frills practical solutions to meet everyday vacuuming needs, and is based on our commitment to lowering the total costs of cleaning.

- Modular design allows easy and flexible interchange of platforms
- Quality features provide better productivity
- Craftsman's version with power socket, automatic on/off and delayed action
- Designed to be operator friendly
- Fast access to float basket and filters for cleaning and maintenance
- Steel version available for heavy-duty use. Available with 35 or 75 litre container, the larger version is also offered with one or two motors to suit all applications.

” Trademan wet
& dry vac's “

Two large lifting handles give a good grip for easy removal of the motor top. They also serve as a convenient way to store the cable

Large latches for ergonomic use and easy access. On the larger models (50 & 70 litre versions) the latch is designed to be in two positions, which makes it easy to put the motor top on/off

Compact and well designed parking position for handle and tools makes storage and transport easy

An ergonomic grip is builtin to facilitate the tip & pour tank emptying system (50 & 75 litre-versions)

The handle is adjustable to suit the operator and tilts tank for compact storage

RELIABILITY IS ALSO OUR MANTRA WHEN IT COMES TO SERVICE

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: four levels of service reflecting different requirements and an optional supply of a substitute machine in critical situations.

24-HOUR SERVICE

Full Service+ Solution

A total coverage package offering four maintenance visits a year + service at a known fixed cost. Optimal for customers with a need for extensive daily cleaning. Labour, travel expenses, spares and parts are all included.

Full Service Solution

A package offering four maintenance visits a year + service. Ideal for customers who clean daily. Labour, travel expenses and spares are included.

Standard Service Solution

This package provides two preventative maintenance visits a year. Labour and travel expenses are included.

Subscription Solution

By entering the subscription contract, the customer agrees to a minimum of one maintenance visit per year.

TECHNICAL SPECIFICATIONS

Description	Unit	GWD 335 Steel	GWD 375 Steel
Plug for electric tool	w	-	-
IP Protection class	-	IP24	IP24
Rated power*	w	1350	1350
Suction power end of tube	w	280	280
Airflow	l/sec	37	42
Vacuum at nozzle	kPa	22	22
Sound pressure level (BS 5415)	dB(A)	64	64
Tank capacity	litre	35	75
Dust bag capacity	litre	17	34
Main filter area	cm ²	1350	2260
Length x width x height	cm	44x41x72	64x60x100
Weight	kg	8.5	21.5
