

# covermate<sup>®</sup>

For a comprehensive range of cover lifting solutions

## NEW COVERMATE 101L

### Specification

- Hydraulic Jacks 1
- Weight Kg 28
- Max load tonnes 1.5 SWL
- Max lift mm 150
- Key centres mm 240-825
- Max cover width mm 925

The new light weight hand hydraulic machine has been developed to meet the needs of the vehicle based contractor, who has the need for a low space and low weight machine to add to the “on board” equipment. The machine will fit in the smallest car when dismantled for survey and on site operation.

### Benefits

- Safe one person operation
- Certified safe working load 25% certified over-load 1.5 tonnes
- Simple & quick assemble from kit form
- 2 sets of keys for imperial and metric key-holes
- Use of the Covermate minimizes the risk of back injury
