

# **Transformer Enclosure**

The JCE range of FPT Flameproof (Ex d) Transformers are intended for use in areas made potentially hazardous by the presence of flammable liquids, gases, vapours and dusts (Zone 1, 2, 21 and Zone 22). Certified for Group IIB locations. Our standard transformer range is from 100VA up to 8000VA, all with fused primary and secondary windings.

Variations can be supplied to customer specification, please advise requirements when ordering.

All enclosures are chromate primed and polyester powder coated for increased protection against corrosion in hostile environments.
