

Do you require highest standards from your gas safety equipment?

Then choose WITT for stainless steel valves and accessories. For hydrogen, corrosive gases or pure gas applications.

SAFETY RELIEF VALVES

FLASHBACK ARRESTORS

NON-RETURN VALVES

HIGH QUALITY GAS SUPPLY WITH WITT STAINLESS STEEL SAFETY DEVICES.

WITT-Gasetechnik offers a wide range of stainless steel flashback arrestors, non-return valves, safety relief valves and gas filters. WITT stainless steel safety devices are of highest quality and very robust and are suitable for hydrogen applications as well as with pure or corrosive gases or when used in corrosive environments.

WITT offers safety equipment you can trust and rely on. State of the art manufacturing technologies, premium stainless steel (e.g. 1.4305/AISI 303, 1.4404/AISI 316L, 1.4541/AISI 321) and a sophisticated quality management system guarantee highest quality. It goes without saying that WITT products meet all relevant international standards. For your safety.

With a highly skilled workforce and extensive know-how WITT offers highest level of expertise even for special applications. With complete development and manufacturing from a single source we can rapidly respond to your demands. Talk to us about your requirements. We will provide your individual safety solutions.

APPLICATIONS FOR STAINLESS STEEL DEVICES

- **HYDROGEN**
Automotive industry
Fuel cells
Power generation
- **PURE GASES**
Food industry
Pharmaceutical industry
Chemical industry
Glass industry
Research facilities
- **CORROSIVE GASES / ENVIRONMENTS**
Biogas plants
Petrochemical industry

OUR PORTFOLIO

- 1 **FLASHBACK ARRESTORS**
- 2 **NON-RETURN VALVES**
- 3 **SAFETY RELIEF VALVES**
- 4 **GAS FILTERS**

WITT – BECAUSE YOUR SAFETY IS PRECIOUS!

1 FLASHBACK ARRESTORS

WITT flashback arrestors are used to protect the gas supply and can be used for almost all technical gases. By combination of all established safety elements flashback arrestors provide protection against flashbacks and backfire. Flashback arrestors also prevent the formation of dangerous gas mixtures within the pipeline.

- Combination of flame arrestor, non-return valve and thermal cut-off for optimal protection
- Extinguish dangerous flashbacks or backfire
- Avoid explosive mixtures in the gas supply
- Depending on requirements, individual selection of safety features possible
- For fuel gases and oxygen
- Installation independent of the orientation
- Long durability
- Variety of connections available

	Model	Remarks	Gases / Max. working pressures / Flows						Safety elements				Connections
			Acetylene (A)	Ethylene (E)	Oxygen (O)	LPG (P)	Hydrogen (H)	Natural Gas (M)	Inlet Gas Filter	Flame Arrestor (FA)	Non-Return Valve (NV)	Temperature activated Cut-off Valve (TV)

	F100N-ES	EN 730					17 bar 246 psi	17 bar 246 psi		X		X	

2 NON-RETURN VALVES

WITT non-return valves protect plants, pipelines and outlet points against reverse gasflow. The product range of non-return valves offers a wide range of dimensions and flow rates. The sophisticated valve technology of WITT non-return valves provides small pressure drops making them also suitable for applications with smallest operating pressures.

- Avoid the formation of explosive mixtures in the gas supply
- Suitable for 4 mbar to 40 bar
- For all technical gases – wide range of applications
- Low pressure drops – using complex valve assembly with low opening pressures
- Sophisticated valve design using elastomer sealings for leak tightness and long service life
- Installation independent of the orientation
- Variety of connections available

	Model	Remarks	Opening pressure	Gases / Max. working pressures						Connection
				Acetylene (A)	Oxygen (O)	LPG (P)	Hydrogen (H)	Natural Gas (M)	Neutral Gas

	800-ES	Burn-out safety with oxygen	ca. 1 bar ca. 14 psi		240 bar 3,480 psi		300 bar 4,351 psi		300 bar 4,351 psi	Other connections on request

3 SAFETY RELIEF VALVES

WITT safety relief valves protect against over pressure by venting excess gases from pipelines, gas receivers and other equipment. The spring-loaded, direct action relief valves are suitable for individual opening pressures from 5 mbar to 100 bar. The compact size allows easy installation in any orientation and makes the valves suitable for many applications.

- Spring-loaded, direct action relief valves
- Individual opening pressure from 5 mbar to 100 bar
- For all technical gases – wide range of applications
- Compact size
- Installation independent of the orientation
- Protective dust cap
- Variety of connections available

	Model	Remarks	Technical information				Features			
			Opening pressure	Inlet connection	Outlet connection	With condensation outlet	Inlet filter (optional)	Manual ventilation	Manufactured and certified according to EN ISO 4126-1 AD 2000 bulletin A2 and VdTUV-bulletin 100	Single certification (Modul F)
	SV805-ES	For gas receivers and pipelines CE-marked according to PED 97/23/EG CE0045	> 0.5 bar–45 bar 7 psi–652 psi	Depending on model	M24 x 1	X		X	X	
	SV805A-ES	For gas receivers and pipelines CE-marked according to PED 97/23/EG CE0045	> 0.5 bar–45 bar 7 psi–652 psi		G 1/2"			X	X	
	AV619-ES		> 5 mbar– < 500 mbar 0.07 psi– < 7 psi		Threads G/BSP NPT VCR	G 1/2"–1"		X	X

▀ **OUR PRODUCT RANGE**

Gas Control Equipment

- Gas mixing systems
- Gas metering systems
- Gas analysers
- Leak detection systems
- Gas pressure vessels
- Engineering of customised systems

Gas Safety Equipment

- Flashback arrestors
- Non-return valves / check valves
- Quick couplers
- Safety relief valves
- Stainless steel devices
- Gas filters
- Pressure regulators
- Outlet points
- Lance holders
- Ball valves
- Automatic hose reels
- Test equipment
- Accessories
- Customised safety equipment
